Highlights

True stereo sound

A solitary connection of audio out (left and right) which goes directly to a stereo receiver for improved sound.

Eliminates tangles

The spring-loaded retractable device facilitates easy mobility when traveling by allowing you to select exactly the length of cable you need and storing the rest on an internal reel.

Plug & Play

Plug & Play gives you the ability to install or add a new component and have it work without having to perform any complex installation procedure or technical analysis.

Molded ends

Molded ends prevent fraying and extend the life of your cable.
