

ideacentre AIO 3

ONE SERIOUSLY SLEEK, SLEEK PERFORMER.

With the Lenovo™ IdeaCentre™ AIO 3, powerful performance meets stylish engineering. It handles demanding apps with ease thanks to the ultra-fast responsiveness of up to an AMD Ryzen™ 7 4700U Mobile Processor, seamless DDR4 memory, and solid-state drive storage. It has an elegant stand and near-borderless display. And it gives you more desk space, too. Available with optional touchscreen.

WHY YOU SHOULD BUY LENOVO IDEACENTRE AIO 3

Ultra-fast responsiveness

Accelerate everything you do with the IdeaCentre AIO 3 powered by up to an AMD Ryzen™ 7 4700U Mobile Processor with Radeon™ Graphics. With up to 8 cores and industry-leading AMD technology, it makes multitasking a breeze. It also has the option of 1 TB of disk space and discrete graphics. For your PC peripherals, such as a mouse, keyboard and backup drive, the IdeaCentre AIO 3 has plenty of ports. In addition to USB 3.0 and 2.0 ports, there's a 3-in-1 card reader and HDMI™-Out, should you need a second screen.

More captivating

The display gives you an outstanding viewing experience—from wide angles, too. The narrow bezels are just 9.5 mm at their thinnest, resulting in a huge 90% screen-to-body ratio with more screen and less distractions. With the touchscreen option, you can use your IdeaCentre AIO 3 click or drag files directly on the screen. You and your family can interact with the screen more to open apps, edit photos, and navigate your way around.

Brightens up any room

Whether you need to work, be entertained, or video call someone, the eye-catching IdeaCentre AIO 3 will look great anywhere. And with its stylish stand and base, this all-in-one will save you much-needed desk space. When you connect smartphones, digital cameras, and other devices to a PC, the result is usually a sea of messy cables across your desk. Not so with the IdeaCentre AIO 3. It has a cable collector built into its stand, so you can have a more space to work and play with.

Very flexible

Whether you're working on some slides or watching your favorite show, you can tilt the IdeaCentre AIO 3's stand to the right angle. You can also easily adjust the display to avoid any unwanted light reflection. Your personal privacy matters. That's why each IdeaCentre AIO 3 is fitted with a TrueBlock Privacy Shutter. When you're done with your webcam, just flick the button on the tip of your screen to close it—and keep the outside world out.

LENOVO SERVICES

Warranty Upgrades - On-site / In-Home Service

Maximizes PC uptime and productivity by providing convenient, fast repair services in your own home.

Accidental Damage Protection

Avoid the hassles of unexpected repair costs. Provides coverage for non-warranted damage incurred under normal operating conditions, such as minor spills, drops or damage to the integrated screen.

Warranty Extensions

(1-to-3 Years Total Duration)

This fixed-term, fixed-cost service helps accurately budget for PC expenses, protect your valuable investment and potentially lower the cost of ownership over time.
