We work, you play.

Indesit Company constantly seeks to improve and refine our products to offer you the best solution, so we reserve the right to change specification without notice. All specification correct at time of going to print.

Ed. 04/2005

The Indesit Cooling Collection.

i indesit

We work, you play, play, play

Indesit appliances are designed to free your time for the fun things in life. Our philosophy of "We work, you play" is at the heart of our latest collection of freestanding appliances with innovative, efficient and reliable features that work hard to simplify your life. And it's reflected in our association with the things that you enjoy doing in your spare time, such as watching films and playing sport. We've developed a partnership with Universal to bring the big screen to our consumers, and we're retaining our support for sport through our sponsorship of the ATP Tennis Rankings and major European Volleyball Championships. It's why we can say "*We work, you play*".

Indesit Service Pledge	30

Nice and strong.

Design is generally a matter of form. However, in the case of the new Indesit refrigerators by Giugiaro, design is above all a matter of substance. The soft and rounded lines, the innovative internal solutions and the choice of materials satisfy the need for strength, ergonomics and practicality. Not a single detail is an end unto itself: everything is good looking, but also useful and sturdy. Like the new doors, which are solid and easy to open, thanks to the more ergonomic integrated grip; the base is smooth without any dusty slits. Inside, every element combines elegance and practicality: transparent drawers, strong and roomy; sturdy and flexible containers. And lots of more new features that make Indesit refrigerators ever more spacious, efficient and flexible.

A new concept of space.

Indesit refrigerators have been completely re-designed to maximise storage capacity and to preserve food as efficiently as possible.

PLAY ZONE

Some Indesit models feature this unique Play Zone, a clever piece of kit to keep cans and bottles in order in your refrigerator. It's not just a smart way of maximising your drinks storage space, it also cools drinks faster as the cold air can circulate easier.

Place the Play Zone on any shelf of your refrigerator for maximum flexibility and you can store as many or as few bottles as you need without wasting space – fold it flat for safe wine bottle storage or simply fold it into 3 storeys to stack lots of different types of bottles and cans.

FRIDGE COMPARTMENT

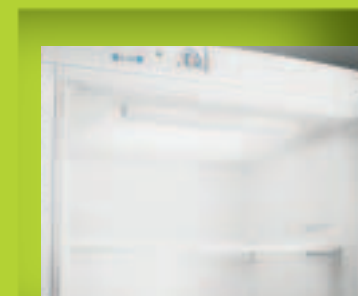

FLEX COOL BOX

Indesit's Flex Cool Box is a clever storage solution, maximising space in your refrigerator – put it in the bottom of your fridge with fresh meat or fish to keep it at its best for longer or use it as a handy cheese box.

MAXI BOTTLE SHELF

The bottle holder compartment has a new, roomier design, and can also hold large and bulky bottles – even 2-litre ones – along its entire length.

LIGHT XTRA

Thanks to the new and improved lighting distribution - two lamps placed on the upper part of the fridge, and fixed above the glass shelves, the internal visibility is simply perfect.

FREEZER COMPARTMENT

TRANSPARENT DRAWERS

The freezer drawers are transparent to allow frozen foods to be identified immediately. This avoids them being opened repeatedly while looking for food, thus keeping the door open longer than necessary and wasting energy.

ICE³

To save even more space, the new ice trays are now set into the inner freezer door of the double door refrigerators or integrated in the drawers of the combis and over-counter freezers. Their special design makes them more practical and hygienic, preventing water being spilled when moving them, and keeping the ice in sealed containers away from foods that could taint the ice cubes.

More technology, less energy.

Indesit refrigerators offer the best cooling and food preservation features combined with the best energy efficiency performance.

A+

The new Indesit range with A+ energy rating, offers the best performance with minimal energy consumption: 25% more energy savings than A rated models.

TOTAL NO FROST IN 'A' ENERGY

A truly complete No Frost system. Prevents ice from forming in the freezer compartment, sparing you the tedious task of defrosting, and stops frozen foods from sticking together, preserving them better and for longer. It also maintains a suitable temperature in the fridge compartment, preventing the formation of frost on foods and conserving their original flavour and quality. All this with a minimum A energy rating.

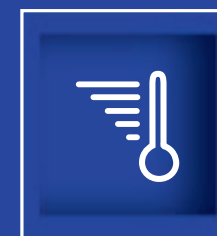

HYGIENE CONTROL

An innovative coating on the inside of the fridge compartment, helps protect against bacteria for the safest environment for your food.

ECO

Select Eco on the thermostat for the optimum level of cooling and efficient energy consumption.

SUPER COOL

This button is used to lower the temperature of the refrigerator to its minimum value when adding foods that require rapid cooling. Following the required time, the refrigerator automatically returns to normal operation.

HOLIDAY

During periods of prolonged absence, this function enables the freezer to be left running and the refrigerator to be kept at a temperature of around 12°C – empty, with the door closed. This prevents the formation of moulds and unpleasant odours. Energy consumption is minimal and there are no unpleasant surprises upon your return.

SUPER FREEZE

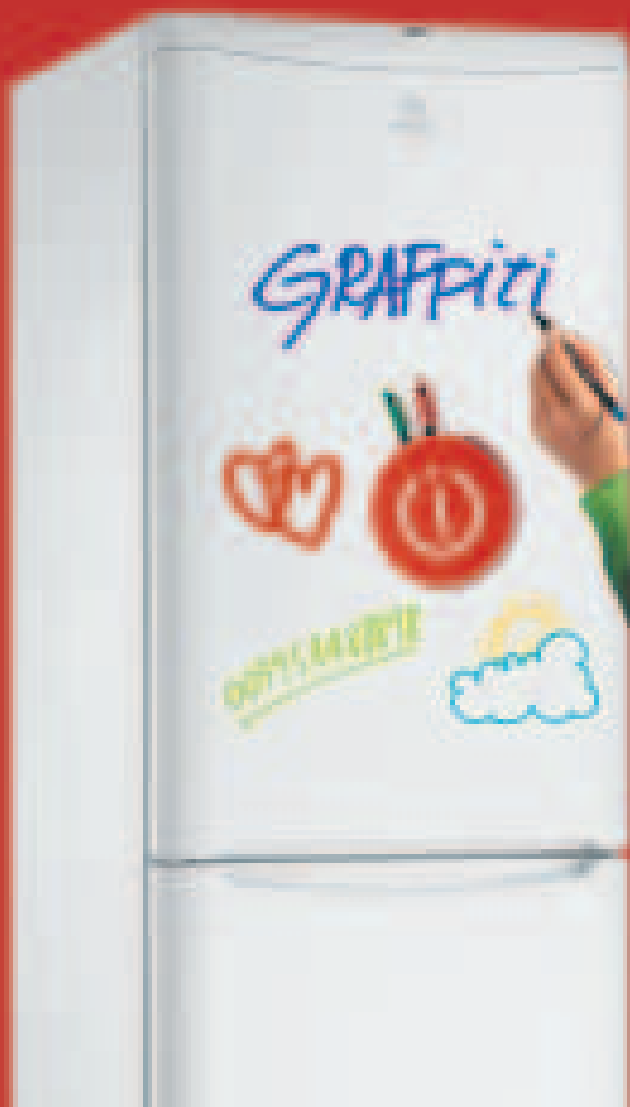

Select Super Freeze to quickly lower the temperature in the freezer. Great for freezing your fresh foods so they're as fresh as the day you bought them.

Graffiti.

The fun that came in from the cold.

From today you can show everyone how creative you are on the new Indesit refrigerators. In fact the new Graffiti range is revolutionising the role of the fridge. Thanks to a special outer surface finish, you can write on, draw on and colour your fridge as if it were a normal whiteboard. A marvellous innovation that combines the functional and practical aspects of an Indesit refrigerator with the fun of personalising the design of your fridge or, more simply, the chance to jot down your shopping list, a telephone number or recipe.

Graffiti refrigerators come with a complementary set of felt-tip pens so you can get writing and drawing straight away, giving free rein to your imagination.

Indesit Service Pledge.

Easy Life

Our commitment to making your life easier does not stop once you have bought your appliance. Indesit's after sales care is second to none.

Call us at your convenience – 364 days a year

Our operators are waiting to take your call every day, including weekends on **08709 066 066**. Alternatively, book online, anytime, at www.indesitservice.co.uk.

Appointments to suit you – not us

You can choose between morning or afternoon appointments with the option of the engineer's first or last visit of the day. Saturday appointments are also available in most areas.

Local engineers – nationwide

You have access to over 1100 fully qualified engineers on call to ensure you receive fast, reliable, local service.

Rest assured – you're covered

Your Indesit appliance is covered for a full 12-months by a no-quibble parts and labour warranty*.

*Digital display appliances benefit from an additional 4-year parts only warranty when you register with us

Your peace of mind - extended

For a small monthly outlay you can ensure that we continue to protect your appliance by extending your original guarantee for up to 5 years.

Professional workmanship – guaranteed

Only your local Indesit engineer is fully trained to repair your appliance. He fits only genuine replacement parts and guarantees his work for a full 12 months.

Caring for your Indesit – looking good for life

We have developed a range of products that protect and hygienically clean your appliance to keep it looking good and functioning efficiently throughout its life. Please call 08709 077 077 for more information.
