PHILIPS

Highlights

Stainless steel design

Durable full-metal design in food-grade brushed stainless steel for long, reliable use.

Multi safety system

The kettle shuts off automatically when the water is ready, when it is lifted from the base or when there is too little water.

Spring lid with large opening*

A push-button lid opens smoothly at the touch of a button, avoiding steam contact. The large opening simplifies cleaning.

Micro-mesh filter

A removable micro-mesh filter on the spout captures tiny limescale particles as small as 200 microns to ensure a clear cup.

Pilot light

Elegant indicator light incorporated in the power switch indicates illumination when the kettle is turned on.

Easy refilling

The kettle can be filled through the spout or by opening the spring lid.

Flat heating element

A concealed stainless steel heating element ensures fast boiling and easy cleaning.

Water level indicator

The water level is easy to read with an indicator located underneath the handle.
