Enjoy the authentic taste of ingredients with dual temperature control technology

Thanks to the dual temperature control technology, the combination of temperature, pressure and cooking time is optimized for different ingredients, bringing out the authentic flavors and ensuring great taste.

Great taste always

- Dual temperature control technology to bring out the flavors
- Water-free cooking technology helps block natural flavors

Smart cooking for more convenience

- Auto pressure release to ensure safety
- 16 automatic programs to help you create easy homemade food

Safe cooking

- 18x safety protection system for worry-free cooking
- Materials in contact with food comply with EU standards

User friendly design

- Clean and large top surface for easy reading
- Sensor touch control panel for easier operation

Highlights

Dual temperature control

With the dual temperature control technology, the combination of temperature, pressure and cooking time is optimized for different ingredients, bringing out the authentic flavors and ensuring great taste.

Water-free cooking technology

The water-free technology helps block natural flavor of ingredients. Specially-designed water-free programs allow more options of ingredients.

Safety auto pressure release

In case of abnormal high pressure inside the cooker, steam will be released automatically from the pressure regulator valve to ensure safety.

16 automatic cooking programs

16 automatic cooking programs set you free from complicated cooking methods. Each program is set based on ingredients with

specific pressure and cooking time to reach great taste of different ingredients. Making various homemade dishes can be easier.

18x protection system

18x safety protection system for worry-free cooking. Makes cooking safer and more enjoyable.

Food grade materials

Materials in contact with food comply with EU food grade standards.

User friendly design

Clean and large top surface without protruding elements. Easy to read and fits into any kitchen style.

Easy control panel

Sensor touch control panel on the top can be operated easily.

Specifications

Accessories

Included: Measuring cup, Non-stick innerpot, Recipe booklet, Scoop, Steaming tray/basket

General specifications

Product features: Cancel button, LED display,

Preset cooking function, Time control

Prefix programs: 16 automatic cooking programs

Keep warm function: 12 hour(s)

Type of lid: Fixed

Technical specifications

Capacity bowl: 5 L

Cord length: 1 m

Frequency: 50 Hz

Voltage: 110 V

Power: 900 W

Design

Color of control panel: White

Color(s): White and Silver

Weight and dimensions

Dimensions of packaging (LxWxH):

460x370x362 mm

Dimensions of product (LxWxH):

372x287x298 mm

Service

2-year worldwide guarantee

Sustainability

Packaging: > 90% recycled materials

User manual: 100% recycled paper

Country of origin

Made in: China
