

Philips AirFloss
Interdental - Rechargeable

- w/ 2 Nozzles
- 1 Nozzle holder

HX8233/02

Don't floss? Then AirFloss.

Removes plaque where brushing can't

For those who don't floss consistently, AirFloss is the easiest way to start cleaning between teeth. AirFloss can be used with mouthwash or water and features unique air and micro-droplet technology to remove plaque where brushing can't.

Benefits

Achieve a 30-second clean

- Cleans your entire mouth in just 30 seconds
- Point. Press. Clean!

Helps build a healthy habit

- An easy way to improve cleaning between teeth

Improves oral health

- Removes more plaque between teeth
- Helps improve gum health in just two weeks

- Helps prevent cavities between teeth

Easy to use

- Air and micro-droplet technology
- Guidance tip ensures correct placement
- Comfortable ergonomic handle
- A nozzle for each member of the family

Features

An easy way to start

Interproximal cleaning is very important to overall oral health. AirFloss is an easy way to clean deeper between teeth, helping to form a healthy habit. After

three months of using AirFloss, 96% of inconsistent flossers continued to use AirFloss four or more days per week.

PHILIPS

AirFloss

Removes more plaque between teeth

Air and micro-droplet tech

Guidance tip

The slim angled nozzle and guidance tip make finding the correct placement easy. Just slide along the tooth's surface near the gum line until the tip fits into the groove between the teeth.

30-Second Clean

With the AirFloss, cleaning your entire mouth takes just 30 seconds. Simply press the button once for a single burst, then move and repeat. To use the

new auto-burst feature, hold down the button and move the guidance tip from space to space. It will automatically burst every second.

Easy-fill reservoir

Fill the reservoir on the handle with either mouthwash or water for a refreshing clean, then point and shoot. The reservoir holds enough liquid for up to two uses.

Better gum health

Sonicare AirFloss is clinically proven to improve gum health in just two weeks.

Helps prevent cavities

By gently bursting away plaque that brushing missed, Sonicare AirFloss helps prevent cavities from forming in the spaces between your teeth.

Ergonomic handle

Designed to be easy to manoeuvre in tight spaces, AirFloss has a comfortable ergonomic handle and a non-slip grip.

Coloured nozzle tips

Coloured nozzle tips and a handy nozzle holder make it easy for the whole family to use AirFloss.
