

TEP-TX5

4K Android player designed for TEOS

Overview

Add TEOS corporate workspace applications to any display device with this slim, compact 4K Android Player

The TEP-TX5 connects via HDMI to any display – including non-Sony flat panel screens and projectors – giving instant access to the full range of TEOS workspace solutions plus a world of Android apps. Integration’s simple, with no tricky set-up required. With support for 4K 60p and HDR, all your apps and content look their very best on compatible 4K displays and projectors.

The TEP-TX5 is compatible with a suite of applications, including digital signage. Applications are controlled over the network from TEOS Manage, the complete display device and workspace management solution that is powerful, flexible and easy to use. Other Android apps can be installed and accessed via Google Play.

Features

- Superb 4K image quality**
Supports display of high resolution 4K content at up to 60P with HDR compatibility.
- Compact size**
The player’s slim, compact and professional design allows easy integration into any environment.
- Versatile connectivity**
Wide connectivity options include HDMI-CEC, Wi-Fi and Bluetooth.
- Speedy, responsive operation**
The player’s powerful processor ensures smooth, responsive operation.
- High storage capacity**
Generous 16GB capacity to store apps and data.
- Built-in Android applications store**
Endless possibilities to display what you need without any external devices, through dedicated applications, such as Zoom and Webex.
