- Certified as "Health Friendly Air"

PHILIPS

Filter for car air purifier

Removes 99.97% of allergens Stop growth of microorganisms, Cleans the air 30% faster, Certified "HealthFriendly Air"

Specifications

Product description

- Filter type: Replacement filter
- Color: Purple
- Designation: AFP120
- Filter technology: HEPA

Performance

- Filtration bacteria/virus
- Air cleaning efficiency (min): 99.97% as small as 0.3 microns
- Filtration Airborne allergens
- Filtration PM1, PM2.5
- Stop growth of microorganisms: up to 99.9%

Weight and dimensions

- Box dimensions (LxWxH)(mm): 125 x 123 x 25
- Box weight (incl. product) (g): ~75
- Product weight (g): ~ 41
- Product dimensions (LxWxH)(mm): 120 x 110 x 20 mm

Logistic data

- Quantity in box: 1
- Reference (Order entry): AFP120PTCX1
- EAN1 (China): 6970128330003
- Ordering code (China) GOC: 33000328

AFP120PTCX1

Highlights

Removes 99.97% allergens

The premium HEPA grade filter captures 99.97% of microscopic allergens down to 0.3 microns in size. It efficiently filters allergens and pollutants, such as pollen, mold spores, dust, dust mites, pet dander and smoke, even some bacteria and viruses. So now you can give your family purer air to breathe, and protect them from allergy related conditions, such as asthma and hay fever.

Stops growth of microorganisms

Microorganisms, such as mold spores and bacteria, are the smallest and most difficult particles to remove from the air. Without proper filtration, these microorganisms can accumulate on the surface of a car filter. AllergyFilter Plus contains a special antimicrobial layer that inhibits the growth of microorganisms and other airborne contaminants. This stops the microbes recirculating through the air you breathe, reducing the likelihood of illnesses or allergens spreading.

Clean the air 30% faster

The advanced technology in this premium HEPA grade filter allows for a faster airflow through your device. Just by replacing the standard SelectFilter Plus with the new AllergyFilter Plus, your GoPure will clean the air 30% faster. With the swift removal of irritating particles, anyone suffering from conditions like hay fever will now enjoy breathing clean, healthy air.

Certified "HealthFriendly Air"

Independently tested by the respected biomedical research organization, Airmid Healthgroup, Philips AllergyFilter Plus is certified as effective at removing airborne allergens, such as birch tree pollen, timothy grass pollen and cat allergen. Because it significantly reduces the risks for allergy and asthma sufferers, this specialist filter is certified as "Health Friendly Air". * Comparing to SelectFilter plus on Particle CADR, using the same GoPure model.
