# High visibility for maximum safety

LED daytime running lights for better visibility

The high-power Luxeon LED daytime running lights improve your safety on the road, increasing your visibility without compromising on lifetime or energy consumption.

## Benefits

### Fits most car models

- Hybrid, electric and start & stop compatible

### Original Equipment Quality

- Water and gravel-impact resistant
- High-quality aluminium housing

### Simple, click installation

- Simple wiring system
- Smart clip-on system

# PHILIPS

LED Daytime lights

Features

Start & stop compatible

With the intelligent electronics of the control box, the modules are compatible with the latest types of vehicles: hybrid, electric and start & stop cars are all supported. Please refer to the application guide section for an overview of all makes and models.

Gravel-impact resistant

The high-quality aluminium housing and lens are water and gravel-impact resistant. After mounting, the system does not require any maintenance.

Aluminium housing

The robust high-quality aluminium housing prevents corrosion and is weatherproof: water, salt, sand and dust stand no chance. The result is long life and no maintenance work.

Specifications
