

HP Digital Sending Software 4.0

HP DSS 4.0 works with HP MFPs and Digital Senders to allow you to integrate all kinds of paper documents into your existing electronic processes, quickly and securely, thereby improving efficiency and reducing costs.

Designed for medium-to-large organisations with heavy, paper-driven workflows who need a decentralised method of converting colour and black-and-white documents into convenient, easily searched, shared and archived digital files.

Streamline information sharing with easy digitising and sending of paper-based information.

- Reduce your filing and storage costs by managing paperwork electronically – reduce physical floorspace requirements.
- Reduce costs associated with physical distribution, i.e. post and courier.
- Increase efficiency throughout the organisation – digitised information is processed sooner, more easily shared and readily accessible from digital archives.
- Convert documents into searchable text files through ReadIris OCR software, e.g. PDF, XML, RTF, HTML and TXT.

Software design ensures intuitive operation and advanced administration controls.

- Easy management – touch-screen control panel can be configured to provide user prompts to ensure that documents are always indexed correctly and sent to the right destinations.
- Automate predefined processing and routing instructions.
- Track documents for intelligent troubleshooting; LOG file provides event records.
- Receive e-mail alerts for any user- or system-generated errors.
- Use Configuration Utility to manage HP DSS 4.0 across multiple MFP and stand-alone digital sending devices.

Integrate seamlessly and securely into existing IT infrastructure structure.

- Software leverages existing IT infrastructure – network authentication, e-mail addresses and fax services – for rapid return on investment.
- Make use of company directory information such as distribution lists for auto-completion of e-mail addresses.
- Use existing LDAP or NTLM, Novell™ or Kerberos network security to verify user identity.
- Enhanced security controls including secure send key, controlled routing and the ability to wipe device hard drive clean after transmission.

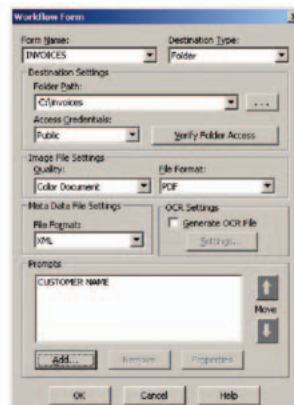

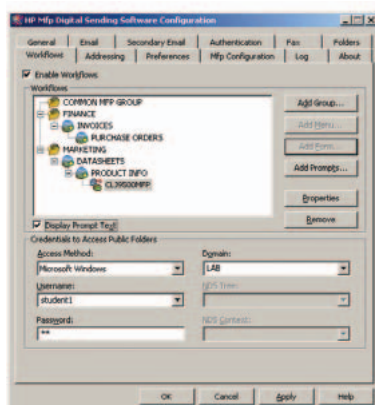

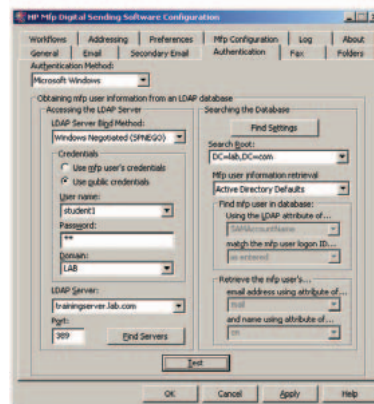

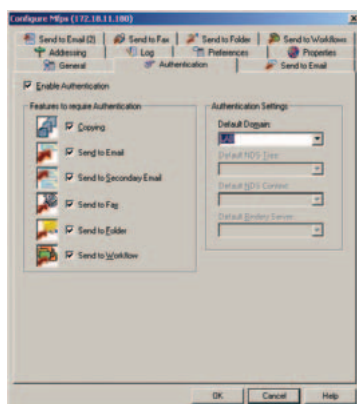

Technical specifications

DSS 4.0 features	Send to network folder, Send to fip, Send to printer, Create and send metadata, Ability to create custom keys for folders or workflows, Basic OCR (ISIS); Windows NT [®] , Kerberos, LDAP, and Novell [™] authentication; LAN Fax, Internet Fax, Windows 2000/XP Fax
LAN fax/Internet fax providers supported	Any Way, AccPac, Biscom, Captaris, Castelle, Cycos-mrs, Esker, FAXSys, Intercope, Fenestrae, GFI, Gold Fax, Imecom, Interstar, Omtool, RedRock, RTEFax, Tobit, Topcall, Zetafax, NET SatisFAXtion
Metadata	Text index file supported: XML and .HPS Number of index tags: Up to 20 (file name can be selected at control panel)
Address book types	Exchange Global Address Book, LDAP v3, public address books, private address books, distribution list support
Private distribution lists per user	100
Digital sending formats	PDF, TIFF, JPEG, MTIF (additional formats available using OCR: searchable PDF, .RTF, .TXT, .HTML, .XML)
Image compression	JPEG
Network operating systems	Server OS requirements: Windows [®] 2000 Professional (Server or Advanced) or Windows XP Professional; Windows 2003 Standard Server or Enterprise Server ¹ ; Pentium [®] III or higher computer; 256 MB of RAM (512 MB if generating OCR output); 200 MB of hard disk space; CD-ROM drive; Fast Ethernet 100Base-TX, Ethernet 10Base-T, or 10Base2 (BNC) Novell [™] support requirements: Novell NetWare version 3.12, 3.2, 4.11, 4.2, or 5 running on the Novell NetWare server, Novell NetWare Client version 4.6 (or later) installed on the Windows computer that runs the HP DSS 4.0 software
Legacy support	HP DSS 4.0 supports the following older MFP models: HP LaserJet 4100mfp series, HP LaserJet 9000mfp series. The following DSS 4.0 features are not backwards compatible: Folder, Workflow, Secondary e-mail
License type	1 device, 5 device, 10 device, 50 device and 250 device license options
Service and support	Unlimited telephone support for basic set up, installation, and troubleshooting in North America, Europe, and Asia Pacific; weekday 9 am to 6 pm

¹ Windows[®] Clustering Services also supported.

Ordering information

T1936AA	HP Digital Sending Software 4.0 CD, support and user's guide
	Option UA0 – 1 device license
	Option OAD – 5 device license
	Option OA9 – 10 device license
	Option OAA – 50 device license
	Option UD6 – 250 device license
