Highlights

24 carat gold-plated connector

24 carat gold-plated connectors ensure the best signal quality for your components.

24K gold plating

Prevents corrosion, which helps maintain signal quality over an extended period of time.

High purity copper

This copper conductor provides high accuracy in signal transfer with minimal resistance.

Premium braided shielding

Extra braiding over mylar covered foil shielding provide the best protection against signal loss and interference.

Flexible PVC Jacket

Flexible PVC jacket provided protection to the delicate core of the cable. It also offers extended durability and ease of installation.
