PHILIPS

Car lamps
H7 Bright white 6200K, up to +30% brighter light

Highlights

3 year limited warranty

3 year limited warranty for consumer usage

AirFlux thermal design

Optimal thermal design for maximum cooling of LED to ensure ultra-long service life

Intense bright headlights

Philips LEDs headlights 6200K provide the most intense light upgrade solution to your car, with a perfect color match with LED fog and LED position

lights, for a sophisticated and modern light appearance

Maximum visibility

A LED lamp with high lumen output does not mean more visibility on the road's areas where you need it most! For your driving safety and visual comfort, you need to project light on the road ahead far and bright, without glaring other road users. This is the challenge that Philips LED headlight achieves, bringing you maximum visibility, without glare.

Preferred quality of car makers

In the world, 1 out of 2 cars is equipped with Philips lights. Philips is the supplier of choice of all major car manufacturers.

Maximum road safety

For your driving safety and visual comfort, you need to project light on the road ahead far and bright, without glaring the other road users. With an optimized optical design, Philips LED headlight brings you maximum visibility, with up to +30% brighter light on the road* where you need it most. (*than standard halogen lamp. Tests standards according ECE R112 Class B, on top 15 market representative car luminaires)
