Power

- **Power supply:** 50Hz, 220-240V
- **Consumption:** 25 W (Typical)
- **Standby power consumption:** < 3 W

Accessories

- **Remote control:** 37-key Zappa (2422 549 00611)
- Quick start guide
- Warranty Card
- **Batteries:** 2 x AA
- **Cables:** Full SCART cable, Coax RF cable
- **Guarantee booklet:** Global version
- User Manual

Dimensions

- **Set dimensions (W x H x D):** 435 x 65 x 285 mm
- **Set weight:** 4 kg
- **Packaging dimensions (W x H x D):** 514 x 155 x 380 mm
- **Weight incl. Packaging:** 6 kg

Product highlights

ShowView

With the ShowView system, all you need to do to program your video recorder is to enter the ShowView number – a single code of up to nine digits (but usually less) that is printed next to each TV program in most TV guides.

VPS/PDC

With 'VPS' (Video Programming System) and 'PDC' (Program Delivery Control), the TV station controls the beginning and the length of the programmed recording. This means that your recording device switches itself on and off at the right time even if a TV program you have programmed begins earlier or finishes later than expected.

Multi-format Movies

Multi-format playability allows you to play most disc formats for maximum disc compatibility and viewing pleasure.

Multi-format Music

Multi-format playability allows you to play most disc formats for maximum disc compatibility and listening pleasure.

6 hours video recording

The 6-hour record mode available on specific DVD recorder models lets you record up to six hours of video on one single-sided DVD+RW/+R disc

Photos with musical slideshow

Make sharing photos with family and friends more fun! Run a photo slideshow with music playing in the background. This Philips product supports simultaneous playback of JPEG pictures and MP3 music. Make sure the files for the musical slideshow are stored in the same media. Select your favourite MP3 music and start a slideshow of JPEG pictures.

Dual Media Support

Philips DVD Recorders support 'dual media' recording, which is the ability to create recordings on + and - discs (DVD+R/+RW/-R/-RW). The consumer can buy any disc and the recorder will always create fully compatible recordings with any other DVD player.
