Fast boiling and easy cleaning

- Micro-mesh filter for a clean cup of water
- Robust metal kettle with brushed stainless steel body
- Flat heating element for fast boiling and easy cleaning

Safe to use

- Multiple safety system against boil-dry
- Food contact safe stainless steel

PHILIPS

Highlights

Compact design

Enables you to boil the amount of water you need in a quicker way, whilst occupying less space from your countertop.

Water level indicator

The water level is easy to read underneath the handle

Micro-mesh filter

The removable micro-mesh filter on the spout restrains all scale particles with size > 200 micron and ensures that the water you put into your cup is clean.

Spring lid

Spring opening lid opens effortlessly at the touch of a button, also avoiding steam contact

Cordless 360° pirouette base

Cordless 360° pirouette base for easy lifting and placing.

Multiple safety system

The kettle shuts off automatically when the water is ready, when it is lifted from the base or when there is too little water in it in order to avoid boil-dry.

Pilot light

Elegant light incorporated in the on/off switch indicates when the kettle is on.

Power cord winder

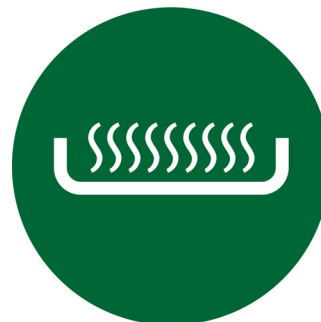

The cord can be wrapped around the base, so that the kettle is easy to place in your kitchen.

Food contact safe material

This kettle is made of food contact safe stainless steel for your clean cup of water.

Flat heating element

The stainless steel concealed element ensures fast boiling and easy cleaning.
