3 Key Sales Points

A 23.8-inch Widescreen IPS Display delivers a new level of viewing pleasure

- **The 23.8-inch widescreen display** greatly surpasses competing models – such as the HP18-5000BR at only 18.5 inches – to offer more functionality and increased viewing pleasure.
- **The Full HD IPS display (1920X1080)** provides amazing picture quality through outstanding color accuracy, visual contrast and clarity for a richer viewing experience. *HP 18-5000BR: HD (1366X768)

Slim and Simple Design with a high-gloss white finish

- Most All-in-One PCs on the market.
- But the 24V360 stands out with its **high-gloss white finish, sleek 14.5mm bezel design** and detailed rounded edge, complementing simple, modern interior design as it creates an optimal viewing experience.

Maximum Usability meets optimum portability

- **Fan-less Technology** : The 24V360 **runs almost silently with its fan-less technology**. Its noise level is only 19.2db, quieter than someone whispering to another person two meters away.
- **Reader Mode** : Provides optimal conditions for on-screen reading by **lessening eye fatigue** from harmful blue light even when reading for a long time.
