Barcode: 8713439144857
GTIN: 08713439144857

Core content

Brand	Trust
Product type	Voice-over-IP station
Colour	Black
Key features	- Voice-over-IP station to use your existing (wireless) phone to make free phone calls via your internet connection - Software included to use your phone with the leading Voice-over-IP application Skype - Because your phone is looped-through with the VoIP station, you can always still use it as a regular phone (even if your PC is shut down) - As your phone is 'off-hook' when you are using it either with Skype or for a normal call, third callers will get a 'busy' signal as usual - Connects to your PC via USB (no power adapter required); connect your phone via RJ-11 phone line
Package contents	- Voice-over-IP station - Multi language user's manual - CD-ROM with software - USB cable and RJ-11 cable - Velcro tape
System requirements	- Windows 2000 or XP - Free USB port - Telephone and telephone connection - Internet connection and Skype subscription (for full functionality)
