HX3824/21

Flossing reinvented with QuadStream technology

Removes up to 99.9% of plaque* in treated areas

Effortlessly thorough cleaning between teeth to improve your gum health. Unique Quad Stream tip cleans more area with less effort for more effective flossing every time, so it's easy to get flossing right.

Easy and convenient

- Easy-to-fill 250 ml reservoir
- Fast universal charging with USB-A to Small Plug cable
- Effortless technique
- Standard tip for spot cleaning

Faster, more effective flossing

- 2 flossing modes, 3 intensities
- Complete clean in 60 seconds
- Pulse Wave technology guides from tooth to tooth
- Quad Stream technology for faster, more effective flossing

An effortless clean with advanced technology

- Quadstream technology: removes plaque from below the gumline

Cordless Power Flosser 3000

Oral Irrigator - Trial Unit NOT FOR RESALE

HX3824/21

Highlights

Quad Stream technology

Unique X-shaped Quad Stream tip separates flow into 4 water jets, which cover more area between teeth and along the gum line. Get a faster, deeper clean without the hassle of string floss.

Cleans from below the gumline

The Quadstream technology removes up to 99% of plaque from 6mm deep periodontal pockets.

Pulse Wave technology

Gentle pulses of water keep you going and guide you from tooth to tooth in Deep Clean mode — so you get it right every time.

2 modes, 3 intensities

Choose the clean that suits your smile. Clean mode delivers continuous flow for effective everyday cleaning. Deep Clean pulses for more thorough cleaning. Adjustable intensity level adapts for comfort.

Complete clean in 60 seconds

Access those hard-to-reach areas with a nozzle that rotates 360 degrees, so that you can use the device in any orientation. Get a thorough 360° clean in just 60 seconds from start to finish.

Fast charging with USB-A to Small Plug cable

Convenient charging with USB-A to Small Plug cable. You can clean for up to 14 days on just one charge.

250ml reservoir

Reservoir capacity of 250 ml holds enough water for a recommended 60-second clean. Simply twist and remove or use the side-fill door for easy refilling.

Effortless technique

Just point, press and clean for more effective flossing. Aim the tip between your teeth and along the gumline — and let it do all the work for you!

Standard tip for spot cleaning

A standard single-stream tip boosts pressure for spot cleaning and removing food debris when you need it.
