PHILIPS

Highlights

Connected ear thermometer

Connects with the Philips HealthSuite health app to give you more data and insights into your health and wellbeing. Each reading is stored direct on the easy-to-use dashboard of the Philips health app.

Phone compatibility

Supports transfer of your data to the Philips HealthSuite health app via Bluetooth® Smart so you can monitor changes over time. Works with: - iPhone®: Version iOS8+ , iPhone® 4S and newer; - Android™: Android 4.4 KitKat+.

Fast

Specially designed for speed and ease. Just one press of the button and you will have a reading in 2 seconds.

Easy and comfortable to use

Is quick, easy and comfortable to use. Compact and streamlined, the thermometer has a simple one-touch button and a probe tip that is comfortable to insert and suitable for use by all ages (newborn and up)

Personalized tracking

Determines your normal body core temperature so you can track and spot changes

quickly and easily in the Philips HealthSuite health app.

Accurate

Body core temperature can be measured in five locations - the mouth, the ear, the armpit, the forehead and the rectum. In ear measurement (also known as tympanic measurement), along with rectum, is the most accurate form. The Philips ear thermometer uses this form to offer precise readings you can be confident are accurate. The thermometer offers a accurate measurements of $\pm 0.4^{\circ}\text{F}$ ($\pm 0.2^{\circ}\text{C}$) within the range of 90.3°F - 109.3°F (32.4°C - 42.9°C) .
