

D-Link®

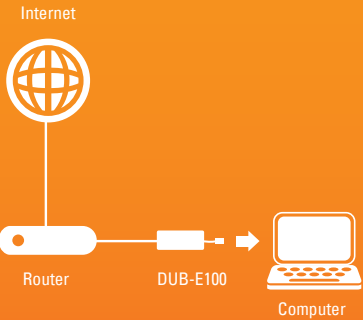

USB 2.0 Fast Ethernet Adapter DUB-E100

What this product does

This high-speed USB 2.0 Fast Ethernet Adapter is designed for Windows-based computers. This adapter is designed to simply plug into any available USB port to connect your computer to an Ethernet network. This adapter doesn't need a power supply to function, reducing the clutter on your desk, and thanks to its small size you can take it with you everywhere - ideal for travellers and mobile workers.

Energy saving functions

D-Link's USB 2.0 Fast Ethernet Adapter can save energy when data is not being transmitted, reducing the battery consumption of laptops and notebooks. It complies with the USB 2.0 standard and is compatible with USB 3.0 and USB 1.1 devices. Setup is automatic - simply run the Installation Wizard and the drivers will be automatically installed.
