

FWD-32LX1

Display

Exceptional LCD performance

High brightness, superior contrast and super-fast 16 ms video response time combine to deliver crisp, clear text and smooth motion images for video applications.

WEGA Engine™ system

Intelligent digital processing system delivers superb picture quality by minimizing signal deterioration caused by digital-to-analog conversion.

Cost of Ownership

Burn-in resistant LCD technology ensures long life when using static images. Low power consumption and long-life panel delivers hours of use to keep your total cost of ownership low.

Upscale style

Scratch-resistant crystal-look bezel in a choice of three elegant colors including pearl white adds upscale refinement to any interior. Cable management system conceals wires and cables, keeping the back looking streamlined and uncluttered.

Networking options

Optional network cards and boxes (sold separately) let you centrally control, deliver and troubleshoot digital content across a standard IP network to one or hundreds of networked displays. Reduce labor and production costs associated with managing individual content.

Sony Large Panel LCD Displays incorporate WEGA Engine™ technology to deliver remarkable resolution and image clarity. Fast video response time ensures crisp streaming video. Flexible networking options let you centrally control digital content across to hundreds of networked displays. Crystal-look bezel and clean rear panel with cable management system adds upscale refinement to any interior.
