- Triple burst customizable settings

The easiest way to effectively clean between teeth

- An easy way to start a healthy habit

PHILIPS
sonicare

Highlights

Up to 99.9% plaque removal

Removes up to 99.9% of plaque from treated areas.***

Micro-droplet technology

Our clinically proven results are possible from our unique technology that combines air and mouth rinse or water to powerfully yet gently clean between teeth and along the gumline.

Easily start a healthy habit

Interproximal cleaning is very important to overall oral health. AirFloss is an easy way to

clean deeper between teeth, helping to form a healthy habit.

Better gum health

Philips Sonicare AirFloss Ultra is clinically proven to improve gum health as much as floss.** Helps improve gum health in as little as two weeks.

Helps prevent cavities

By gently bursting away plaque that brushing missed, Philips Sonicare AirFloss Ultra helps prevent cavities from forming in the spaces between your teeth.

High performance nozzle

The new Airfloss Ultra high performance nozzle amplifies the power of our air and micro-droplet technology to be more effective and efficient than ever.

Triple burst customization

AirFloss Ultra's powerful spray can be customized to your liking, with single, double or triple bursts for each press of the activation button.
