

Philips Smart Air Purifier

With professional-grade performance, the Philips air purifier series 2000 automatically monitors, reacts and purifies the air – then gives real-time air quality feedback via the numerical display and color ring, Ideal for living room.

Our eco passport

Philips wants to make the world healthier and more sustainable. To make this a reality, we have to keep thinking differently; pushing the boundaries of what is currently believed possible. We continuously innovate and deliver products and technologies that are positive for people and the environment. At Philips we call this Green Innovation.

We know this is important to you too. So we have developed an eco passport which explains the environmental performance of our products in the Philips Green Focal Areas, developed through our eco design process since 1994, enabling you to make conscious, informed decisions. An eco passport will explain the Green Focal Areas considered and applied in the specific product.

Energy

- Power: level 50W
- Sound level: 32dB (A) in silent mode
- Turbo mode: yes
- Cleaning performance:
 - >5 CADR/Watt*
 - 304m³/hour
- Annual energy consumption:
