

HP TouchSmart Elite 7320 All-in-One PC

Keep up the good work, stylishly.

The all-new HP TouchSmart Elite 7320 Business PC meets the most discerning style requirements with added performance, expandability, speed and power; it's everything your business needs in a sleek, modern design.

HP recommends Windows® 7.

Capitalize innovative touch screen computing.

The full HD¹, 54.6 cm (21.5") diagonal widescreen display with multi-touch capabilities helps improve productivity. LED backlighting ensures images are consistently bright, while reducing power consumption.

Use touch capabilities to streamline multistep processes and complete common tasks with greater accuracy and intuitiveness. Crop, resize and rearrange windows, images and document artifacts.

Multiple users can interact with the bright, high-definition¹ display, thanks to the wide viewing angle and panel movement from 0 degrees vertical to 30 degrees backwards.

Performance never looked so good.

The full HD¹, 54.6 cm (21.5-inch) diagonal widescreen LED backlit display adjusts easily for comfortable use. The sleek design enhances appearance in customer spaces and can be mounted² on a wall, desk, or other surface via an integrated VESA mounting system. diagonal widescreen LED backlit display adjusts easily for comfortable use. The sleek design enhances appearance in customer spaces and can be mounted² on a wall, desk, or other surface via an integrated VESA mounting system.

The all-in-one PC design and integrated wireless³ LAN helps to reduce your computing footprint by integrating hardware and peripherals. Just unpack, place, plug in, and get to work.

Perfect for customer facing locations, its slim profile, high-gloss finish and conveniently positioned ports and connectors, including an integrated 6-in-1 Media Card Reader, are the total package for your business.

Connect and collaborate with ease.

Connect and collaborate easily with the integrated desktop computer, 21.5" diagonal full HD¹ WLED

backlit monitor, 2.0 MP webcam⁴ and dual microphone array⁵.

Chat face-to-face and feel more connected to co-workers at the office, across town or on the other side of the globe using the built in webcam⁴ and array microphone. The webcam⁴ also captures and lets you instantly review photos and video clips.

Simply the latest technology.

Designed to give you the performance you need for today's process intensive and graphics rich applications. Intel® 2nd Generation Core™ i3 and i5⁶ processors provide top speeds and multiple cores for some of the most demanding applications you'll run.

Two side SuperSpeed USB (3.0) ports deliver higher data transfer rates and improved power efficiency so you can take advantage of new technology and devices being developed.

In today's data rich environment, businesses need all the storage they can get. The HP TouchSmart Elite 7320 offers SATA hard drives up to 2 TB⁷ and Slim Drives⁸.

⁶ 64-bit computing on Intel architecture requires a computer system with a processor, chipset, BIOS, operating system, device drivers and applications enabled for Intel® 64architecture. Processors will not operate (including 32-bit operation) without an Intel 64 architecture-enabled BIOS. Performance will vary depending on your hardware and software configurations. See www.intel.com/info/em64t for more information. Multi Core is designed to improve performance of certain software products. Not all customers will necessarily benefit from the use of this technology. Intel's numbering is not a measurement of higher performance.

⁷ For hard drives, GB = 1 billion bytes. TB = 1 trillion bytes. Actual formatted capacity is less. Up to 16GB (for Windows 7) of system disk is reserved for system recovery software.

⁸ Don't copy copyrighted-protected materials. Actual speeds may vary. Double Layer is a new technology. Double Layer media compatibility will widely vary with some home DVD players and DVD-ROM drives. Note that DVD-RAM cannot read or write to 2.6GB Single Sided/5.2 Double Sided-Version 1.0 Media.
