

Retractable Phone/Ethernet and USB Cord

Model # ACC80EU

Stay connected on the road with the pocket-sized Targus Retractable Phone/Ethernet and USB Cord. The combination telephone, networking and USB retractable cable connects to most USB peripherals and networks. It offers maximum flexibility in a lightweight, compact, retractable cable design. The USB cable supports both full-size and 5-pin mini connectors. With 1.6 metres of cord it makes it easy to reach that available port and, a high-quality, one-touch retraction mechanism, keeps everything nice and neat. Simply dispense the needed length of cable, and a push of a button will send the telephone cord back into its discrete carrying case. No more hassle with loose, bulky cables while travelling.
