

PHILIPS

Nano Protect Filter

Captures 99.97% of particles

FY1410/40

Intelligent purification

Captures 99.97% of particles

The NanoProtect HEPA Series 3 filter captures 99.97% 0.3µm particles, including common allergens, dust, pollution, bacteria & some virus. 12 months lifetime delivers long lasting performance.

Superior purification

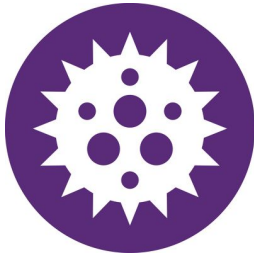

- Captures 99.97% of particles

Long-lasting performance

- As long as 12 months lifetime

Highlights

Superior performance

Philips NanoProtect HEPA Series 3 filter is made of high quality material. It can capture up to 99.97%* of particles even as small as 0.3 microns – the size of most common airborne allergens, harmful particles, bacteria* and viruses*. The high grade filter with firm and

stable structure ensures all the air flows through the filter and delivers high filtration efficiency.

Longer lifetime

Philips NanoProtect HEPA Series 3 filter has 111 optimized pleats. This covers an unfolded area of about 1.6m² to ensure a long lifetime up to 12months.
