- Packaging type: C2

Highlights

Smooth function

Some car models have specific challenges for LED-based retrofit lamps. Unique Philips CANbus adaptors ensure smooth functioning for any electrical issues. They solve possible issues in regards to error messages on your dashboard or LED flickering.

Plug and play

Thanks to the advanced design, the CANbus adaptor is easily installed for good performance from day one.

Waterproof connectors

The automotive design of the CANbus adaptor takes into consideration the demanding conditions of everyday use in the engine compartment.
