Introducing the Small Business-Class Colour Line-up

Product Line-up Overview

This Evaluator Guide introduces you to our line-up of small business-class colour, A4 printers and multifunction printers. These are ideal for individuals and small teams of professionals.

To help you select which colour printer or multifunction printer is the right fit for your specific needs, we provide a simple breakdown of the key Xerox advantages, and explain the performance attributes, capabilities, features and detailed specifications for each Xerox® device.

Below is a quick glimpse of the Xerox® colour printers and multifunction printers covered in this Evaluator Guide. You'll find additional details regarding each device's capabilities, features and benefits in the sections that follow.

Xerox® Phaser® 6020/6022 Colour Printer

- Ideal for 1 to 5 users
- Print up to 10/18 ppm colour, 12/18 ppm black and white
- Recommended monthly print volume: Up to 1,500 pages*
- 150-sheet paper capacity

Image shown: Phaser 6022

Xerox® Phaser® 6510 Colour Printer

- Ideal for 2 to 7 users
- Print up to 28 ppm colour and black and white
- Recommended monthly print volume: Up to 3,000 pages*
- 300-sheet paper capacity, expandable to 850 sheets
- Includes mobile printing support across multiple mobile platforms

Xerox® VersaLink® C400 Colour Printer

- Ideal for 2 to 10 users
- Print up to 35 ppm colour and black and white
- 5-inch capacitive colour touch screen user interface featuring full customisation and personalisation
- Native cloud connectivity, supporting limitless expansion via the Xerox App Gallery
- Mobile printing support across multiple platforms and NFC Tap-to-Pair
- Recommended monthly print volume: Up to 5,000 pages*
- 700-sheet paper capacity expandable to 1,250 sheets via optional tray

* Average Monthly Print Volume – Expected regular monthly throughput.

Xerox® Colour A4 Printers and Multifunction Printers

Need more performance? Xerox offers a full line of advanced colour printers and multifunction printers for every office and every budget. Visit www.xerox.com/office or contact your Xerox® sales representative to learn more.

In this guide

Xerox® WorkCentre® 6025 Colour Multifunction Printer

- Ideal for 1 to 5 users
- Print / copy / scan / email
- Print up to 10 ppm colour / 12 ppm black and white
- Recommended monthly print volume: Up to 1,500 pages*
- 160-sheet paper capacity

Xerox® WorkCentre® 6027 Colour Multifunction Printer

- Ideal for 1 to 5 users
- Print / copy / scan / fax / email
- Print up to 18 ppm colour and black and white
- Recommended monthly print volume: Up to 1,500 pages*
- 150-sheet paper capacity

Xerox® WorkCentre® 6515 Colour Multifunction Printer

- Ideal for 2 to 7 users
- Print / copy / scan / fax / email
- Print up to 28 ppm colour and black and white
- Recommended monthly print volume: Up to 3,000 pages*
- 300-sheet paper capacity, expandable to 850 sheets
- Includes mobile printing support across multiple mobile platforms

Xerox® VersaLink® C405 Colour Multifunction Printer

- Ideal for 2 to 10 users
- Print / copy / scan / fax / email
- Print up to 35 ppm colour and black and white
- 5-inch capacitive colour touch screen user interface featuring full customisation and personalisation
- Out of the box cloud connections, supporting print from/scan to DropBox™, Google Drive™ and OneDrive® with limitless expansion via the Xerox App Gallery
- Mobile printing support across multiple platforms and NFC Tap-to-Pair
- Single-Pass Duplex Automatic Document Feeder (DADF) with duplex scan speeds up to 27 ipm colour and 52 ipm black and white
- Recommended monthly print volume: Up to 5,000 pages*
- 700-sheet paper capacity expandable to 1,250 sheets via optional tray

* Average Monthly Print Volume – Expected regular monthly throughput.

Xerox® Phaser® and Xerox® WorkCentre® Printers and Multifunction Printers

Evaluating Your Needs

Consider the capabilities you need and the performance requirements of your office.

When evaluating which colour printer or multifunction printer best addresses your needs, it's important to have a clear understanding of exactly what those needs are.

Do you need a no-frills printer or multifunction printer that connects directly to a single workstation? Or does your workload demand a higher performance device that's designed to support the printing, copying, faxing, scanning and emailing needs of several networked users in a fast-paced environment?

When evaluating your day-to-day office needs, consider these factors:

- Print-only vs. print / copy / scan / fax / email
- Number of users
- Network connectivity
- Output speed
- Recommended monthly print volume
- Paper capacity
- Automatic document feeder
- Automatic two-sided printing
- Maximum print cartridge capacity
- Device dimensions

Consult the following chart for a device-by-device listing of these capabilities and performance attributes on the Xerox® small business-class colour line-up.

Capabilities/Performance Attributes

	Xerox® Phaser® 6020/6022	Xerox® Phaser® 6510	Xerox® VersaLink® C400	Xerox® WorkCentre® 6025	Xerox® WorkCentre® 6027	Xerox® WorkCentre® 6515	Xerox® VersaLink® C405

¹ Maximum volume capacity expected in any one month. Not expected to be sustained on a regular basis.

² Average Monthly Print Volume – Expected regular monthly throughput.

³ Average standard pages. Declared Yield in accordance with ISO/IEC 19798. Yield will vary based on image, area coverage and print mode.

Evaluating Output Quality

Take a look at available colour tools and technologies to improve your output.

When evaluating the output quality delivered by the small business-class colour printers and multifunction printers, first determine the types of documents you most frequently produce.

Do you need colour output for simple, non-business critical documents, or is your goal to produce colour business collaterals in-house, such as pamphlets, newsletters and flyers?

Xerox leads the colour printing industry, delivering unrivalled print quality through more than 20 years of technology innovations. Xerox® colour printers and multifunction printers provide all the benefits of black and white performance, plus the competitive advantage of colour when your work demands it.

The following describes the print-quality attributes and features of the Xerox® small business-class of colour printers and multifunction printers.

Xerox Built-in Colour Technologies

Xerox® EA Toner

Award-winning, Xerox exclusive EA toner, chemically grown to produce the market's smallest, most uniformly shaped particles, delivers sharper clarity, excellent shadowing and outstanding fine-line detail. It's the same toner used by our high-end, large workteam-class colour printers and multifunction devices.

Automatic Colour Correction

The automatic colour correction technology selects the best colour settings based on the print job's content to ensure beautiful, accurate colour with every print.

Colour Adjustment and Calibration Tools

Xerox print drivers feature intuitive controls for adjusting and calibrating colour output, giving you greater control over the appearance of your colour print jobs.

Industry-standard Colour Specifications / Tools

Resolution

Print resolution capability is typically measured in dots per inch (dpi). However, a laser "dot" can behave differently depending on the printer. For example, the Xerox® VersaLink® C400 and Xerox® VersaLink® C405 (covered in this guide) deliver up to 600 x 600 x 8 dpi, which produces an amazing 16 shades of colour per pixel. Even though other devices offer higher resolutions, many factors contribute to the print quality. The colour tables applied to the print engine, the achievable colour gamut and colour correction profiles all influence the printed output. Other factors, including the presence or absence of the features that follow, also impact print quality.

PANTONE® Colour

The PANTONE Matching System is the definitive international reference for selecting, specifying, matching and controlling ink colours. Xerox® printers and multifunction printers with PANTONE Colour calibrated solid-colour simulations enable output to closely approximate predefined colours in a Pantone colour table. This ensures that printed colours consistently match your intended output, which is critical when printing important documents such as letterhead with colour company logos.

Adobe® PostScript® 3™

PostScript is a page description language that acts as an interpreter inside the printer or multifunction printer. With true Adobe® PostScript® 3™ print language, your documents are printed with the utmost brightness and the truest possible colours and graphics.

Output Quality Features

Evaluating Productivity

Printing and Copying

Consider efficiency tools to enhance printing and copying capabilities.

The basic printing and copying productivity that a device can deliver is a critical consideration when evaluating which colour printer or multifunction printer to purchase for your office.

Does the device deliver the level of performance required to support the demands of a busy single user or small workteam?

Does it offer the flexibility to create more office document possibilities? Can it be expanded in the future to include additional features for your increasing workload, such as expanded memory?

Are there work-saving features designed to improve office efficiency?

Look for the following performance attributes and helpful features when comparing our line-up of small business-class Xerox® colour printers and multifunction printers.

Performance

Output Speed

Measured in pages-per-minute (ppm), a device's output speed is specified for both colour and black and white pages.

First-page-out Time

For average print jobs of three pages or less, the most important specification is first-page-out time, which is the time it takes for the device to receive and process print or copy data and produce the first page.

Adobe® PostScript® 3™

PostScript is a page description language that acts as an interpreter inside the printer or multifunction printer. As processing occurs within the device, there is less network traffic and increased efficiency.

PCL®

PCL (Printer Command Language) is a page description language that functions in similar fashion to that of Adobe PostScript. Most commonly found with colour printers and multifunction printers are PCL versions 5c, 5e and/or 6.

Processor

The faster a device's internal processor (measured in MHz), the quicker it is to print complex documents.

Flexibility

Expandable Memory

Several of the printers and multifunction printers discussed in this guide allow the installation of additional RAM, which increases a device's print productivity and enables more advanced features.

Automatic Two-sided Printing

With automatic two-sided printing, multipage print jobs are automatically printed on the front and back side of each sheet of paper for increased efficiency and reduced paper usage.

Booklet Printing

With booklet printing, a printer or multifunction printer formats printed documents, such as brochures or handouts, for folding into booklets to create professional-looking collaterals in-house.

N-up Printing, N-up Copying

With N-up printing and N-up copying, multiple pages are reduced in size and then printed/copied on a single sheet of paper. This feature is especially useful when outputting presentations or numerous thumbnail images, or when trying to conserve paper.

Poster Printing, Poster Copying

Poster printing and poster copying enlarge an image by printing/copying portions of it onto multiple pages, which can be secured together to create a poster.

ID Card Copy

Copy both sides of an ID card, driver's license or other small document and print onto a single sheet of paper.

Run Black

When one or more colour toner cartridges become depleted, the Run Black feature allows the printer or multifunction printer to continue printing black and white documents without interruption.

Work-saving Features

RAM Collation

By using the printer's or multifunction printer's RAM to collate multiple sets of multipage print jobs, RAM collation eliminates the need to manually collate documents after the print job is completed.

Automatic Document Feeder (ADF)

An ADF allows you to load a stack of originals for automatic copying, scanning or faxing at the touch of a button. ADF capacities range from 15 sheets to 50 sheets for this class of printers and multifunction printers.

Proof Print

When producing multiple sets of the same print job, the proof print feature allows you to print the first set, check it for accuracy, and then either release or delete the remaining sets using the device's front panel.

Evaluating Productivity

Scanning and Faxing

Consider the benefits of paperless work processes.

Scanning and faxing powers the conversion of paper to electronic documents, enabling digital distribution and archiving of hard copy documents for increased workflow efficiency and reduced consumables usage. Additional tools let you manage documents and convert scanned images into editable files.

Xerox® small business-class multifunction printers include powerful scanning capabilities and helpful features that streamline office work processes for busy individuals and small workteams.

Scan File Formats

Xerox® multifunction printers allow you to specify the file format into which the scanned document is converted for greater flexibility and to ensure compatibility with potential recipients.

Scanning Capabilities

Scan to PC / Mac

Scan a document at the multifunction printer and route the digital file directly to your network.

Scan to USB Memory Device

A standard USB port on the front of the multifunction printer accepts any removable USB memory device. Scanned documents can be saved directly to the USB memory device for increased document portability.

Scan to Email

Send scanned documents to multiple email recipients at the same time directly from the multifunction printer. This helpful productivity feature eliminates the need to scan a file to your workstation and emailing the scanned document as an attachment.

Scan to Network

For fast and easy digital archiving, Xerox® multifunction printers with the Scan to Network capability allow you to transfer scanned documents over your network directly to a host server or computer using a specified network protocol, such as FTP or SMB.

Colour Scanning

Multifunction printers with colour scanning capability allow your colour documents to retain their full colour characteristics when scanned at the device.

LDAP Support

The Lightweight Directory Access Protocol, or LDAP, enables the multifunction printer to retrieve recipients' contact information directly from your network, eliminating the need to manually enter email addresses and fax numbers at the device.

Scanning Software

Xerox® Scan to PC Desktop® Software

Some Xerox® multifunction printers either include or offer Xerox® Scan to PC Desktop software, which enables a robust set of scanning capabilities, such as converting documents into editable Word or Excel files. For more information, visit www.xerox.com/scan2pcSE.

Faxing Capabilities

Xerox® multifunction printers help you consolidate office devices without sacrificing the powerful faxing capabilities you rely on as an important communication tool.

Walk-up Fax

With walk-up fax capability, the multifunction printer operates as a traditional fax machine, using a standard telephone connection and 33.6 Kbps transmission speed.

LAN Fax

Multifunction printers with LAN fax functionality let you fax documents directly from your workstation via the print driver.

Fax Forward to Email

With fax forward to email, incoming fax transmissions can be automatically routed directly to your email inbox for convenient fax receipt any place with Internet access.

Fax Forward

Allows you to forward received faxes to other fax machines for easy distribution.

Fax Resolution

The fax resolution for each multifunction printer is specified as the maximum number of dots per inch (dpi).

Colour Fax Send/Receive

The multifunction printer has the ability to send and/or receive colour faxes for clearer communications.

Secure Fax Receive

When a fax containing sensitive information is received by the multifunction printer, it stays in memory until the intended recipient enters a password at the device and allows the document to print.

Evaluating Productivity

Paper Handling

Review your current and future print volumes and media requirements.

When evaluating paper handling capabilities, consider your current and future print requirements. How many print jobs do you run each day? Will you need additional paper trays so you can keep sufficient quantities of different types of paper loaded? Do you print on heavyweight papers and/or different types of media, such as labels and transparencies?

The following considerations should be kept in mind when evaluating this class of printers and multifunction printers.

Paper Capacity

Ample paper capacity allows you to print more without interruption. If you print a lot, or anticipate an increase in your printing workload, consider adding an extra paper tray.

Automatic Two-sided Printing

If you'd like the ability to produce your own professional looking collaterals, look for automatic two-sided printing. You'll not only improve the look and feel of your documents, you'll also use less paper.

Automatic Document Feeder

Need to copy multipage documents? An automatic document feeder lets you insert an entire report, presentation or any other multipage collateral into the device and copy every page at the push of a button.

Custom Media and Paper Sizes

The right paper handling capabilities and features allow you to bring more types of colour print jobs in house. Consider the variety of media the printer or multifunction printer can handle, such as labels and card stock, and whether the device accepts a wide range of paper sizes.

Evaluating Environmental Sustainability

Consider features that minimise environmental impact.

The environmental impact of an office device can be assessed in a variety of ways. Does it meet ENERGY STAR® standards? Does it have energy saving and paper-saving features? Does the manufacturer have a recycling plan?

In 2007 and 2008, Xerox was named to the Dow Jones Sustainability Index for North America. In addition, we were picked by an independent research firm, KLD, which identifies companies that meet globally recognised standards for corporate responsibility. However, our environmental leadership goes far beyond reducing our own environmental footprint. Our printers and multifunction printers discussed in this guide, help our customers become greener as well.

With small, toner-only cartridges and a commitment to using cleverly designed packaging, Xerox® products help reduce office waste.

Plus, Xerox was among the first technology companies to set a company-wide target for reducing greenhouse gas emissions. We joined the U.S. EPA Climate Leaders programme

in 2003 and subsequently set a target to reduce total greenhouse gas emissions by 10 per cent from 2002 to 2012. We achieved our first goal six years early and then announced an even more aggressive goal – a 25 per cent reduction in total greenhouse gas emissions from 2002 to 2012.

Look for the following attributes when evaluating the environmental sustainability strengths of this class of printers and multifunction printers.

Energy-saving Features

Energy Star® Qualified

Xerox® printers and multifunction printers comply with ENERGY STAR® environmental performance standards, ensuring that you'll save money on electricity while also benefitting the environment.

Waste-reducing Features

Xerox® EA Toner

More than just a print-quality advantage, EA toner also emits 65 per cent less carbon dioxide during manufacture.

Paper-saving Features

Automatic Two-sided Printing

With automatic two-sided printing, multipage print jobs are automatically printed on the front and back side of each sheet of paper for increased efficiency and reduced paper usage.

N-up Printing, N-up Copying

With N-up printing and N-up copying, multiple pages are reduced in size and then printed/copied on a single sheet of paper. This feature is especially useful when trying to conserve paper.

Recycling

Green World Alliance

For qualified printers and multifunction printers, Xerox makes it fast, easy and free for you to recycle your depleted toner cartridges through our Green World Alliance Recycling Programme. Visit www.xerox.com/gwa to learn more.

Evaluating Ease of Use and Management

Take a look at how easy the device is to use and manage on a network.

In most cases, individual users and small businesses have limited access to IT resources. Therefore, it's important that the colour printer or multifunction printer you purchase is easy to install, use and manage.

Evaluate the tools delivered with the printer or multifunction printer, and whether they will ease the task of installing the device and simplify day-to-day usage and management. Is the device simple to operate, and will users quickly feel comfortable with it? Are the user interfaces, both the front panel and print driver, well designed and easy to navigate?

Xerox® colour printers and multifunction printers are designed to be set up and installed by non-technical users. The included quick install guide helps install optional accessories, connect the printer to your network and a power source, and power-up the device.

Easy-access consumables, such as toner cartridges, allow for fast, easy replacement by any user for minimal device downtime.

Also, all Xerox drivers are Windows Hardware Quality Labs (WHQL) certified, ensuring compliance with Microsoft® standards and seamless compatibility with Microsoft Windows® environments.

Look for the following attributes and features when evaluating the ease of ownership offered by the colour printers and multifunction printers covered in this guide.

Installation and Management

Xerox® Phaser® Installer

Xerox® Phaser® Installer greatly simplifies the driver installation process, getting your printer or multifunction printer up and running in about two minutes – with no computer reboot required.

DHCP

With the DHCP networking protocol, your colour printer or multifunction printer will automatically be assigned an IP address and join your network.

Pre-installed Print Cartridges

Xerox® printers and multifunction printers with pre-installed print cartridges are virtually plug and play.

Xerox® CentreWare® Internet Services (CentreWare IS) / Xerox® Embedded Web Server

This allows networked users to connect to their printer or multifunction printer via any standard web browser to install print drivers, monitor printer status, view the print job queue, manage settings and properties and access troubleshooting and support resources.

Xerox® CentreWare Web Software

Office environments that have multiple printers and multifunction printers connected to their networks can install, monitor, configure, track usage and troubleshoot from any workstation via one convenient and powerful web application. Additionally, the interoperability of CentreWare Web means it can be used to monitor non-Xerox® devices as well.

Mac Friendly

And for users in Mac environments, peace of mind comes from knowing that printers and multifunction printers are the devices of choice for more Mac users than any other brand of office equipment.

Day-to-day Use

Bidirectional Print Drivers

With bidirectional print drivers, two-way communication between your computer and your printer or multifunction printer allows you to receive helpful device-status updates on your screen.

Xerox® Global Print Driver®

This truly universal print driver lets you install, upgrade and manage Xerox® and non-Xerox® devices from a single driver.

Xerox® Mobile Express Driver®

For mobile users, the Xerox® Mobile Express Driver makes it easy to find, use and manage Xerox® and non-Xerox® devices in every new location.

Xerox® Wireless Print Solutions Adapter

The optional Xerox® Wireless Print Solutions Adapter seamlessly connects your Xerox® printer or multifunction printer to modern mobile and desktop workflows, regardless of your office environment. For more information, visit www.xerox.com/WPSA.

Xerox® PrintingScout Status Manager

This driver-based feature monitors and reports any printer condition that prevents a print job from completing successfully. PrintingScout is designed to provide timely and useful information that allows users to identify and resolve their own printing issues.

Run Black

With the Run Black feature, the printer or multifunction printer will continue printing in black even if it runs out of cyan, yellow or magenta toner.

Front-panel Toner-level Gauges

Conveniently located on the device's front panel, intuitive indicators let users quickly see how much toner remains.

Support and Service

To us, support means providing easy access to the resources you need to ensure your Xerox® device performs at the highest level, continuously delivering optimum results.

Unrivalled Service

Behind every Xerox® product is a large network of customer support that's unrivalled in the industry and available when you need it. Our service professionals use leading edge technologies to keep you up and running. They're even linked to the engineers who designed your product, so you can be confident when you choose Xerox.

Customers also have 24/7, Internet-based access to our knowledge base system, which provides problem-specific solutions or guides users through a troubleshooting tree.

One Year On-site Warranty

Xerox quality, reliability and performance is backed by Xerox Service and Support and a standard one-year warranty.

You decide when you're satisfied.

Visit our support website, at www.support.xerox.com, for additional information about the ways in which we help our customers stay more productive longer.

Supplies

Genuine Xerox® supplies are specially formulated and tested for our products to provide the best image quality and most reliable printing. Third-party supplies simply do not, and cannot, deliver the same, high-quality output as produced by genuine Xerox® supplies.

To ensure your colour printer or multifunction printer performs at its best, make sure you choose genuine Xerox® supplies. Ordering is fast and easy at www.xerox.com/supplies.

Evaluating Security

Evaluate whether the device provides the appropriate safeguards at all points of vulnerability.

Security is a critical competency no matter how small your business. Does the device offer the appropriate level of security for your business? Is it scalable to provide more security if your needs change? The technology you deploy must include the necessary capabilities to protect sensitive data. The Xerox® small business-class colour printers and multifunction printers provide a variety of security features that safeguard your information on the network and at the device.

Network

802.1X

The 802.1X protocol adds a layer of security to the network to prevent unauthorised devices from establishing a network connection.

HTTPS

Hypertext Transfer Protocol Secure or HTTPS, provides data encryption and secure identification of network servers.

IPsec

IPsec (IP security) is a suite of protocols for securing Internet Protocol (IP) communications by authenticating and/or encrypting each IP packet in a data stream.

IPv6

IPv6, or Internet Protocol version 6, includes support for a broader range of IP addresses. The enhanced capabilities of IPv6 will provide significant security benefits to network users and administrators, including traffic encryption, integrity validation peer authentication.

IP Filtering

IP filtering blocks potentially harmful data packets, acting like a firewall to safeguard your internal network.

SNMPv3

The SNMPv3 protocol provides significantly enhanced security functions including message encryption and authentication.

SSL

The Secure Sockets Layer (SSL) protocol allows a printer or multifunction printer to communicate across a network in a way designed to prevent eavesdropping, tampering and message forgery.

Scan to Email with Authentication

Before using a multifunction printer's scan to email function, the user's name and password are authenticated, providing an additional layer of security.

Device

Secure Print

When printing a document, a user chooses a numeric password, and then sends the print job to the printer or multifunction printer. Once at the device, the user enters the numeric password using the front-panel interface and releases the print job.

Secure Fax Receive

When a fax containing sensitive information is received by the multifunction printer, it stays in memory until the intended recipient enters a password at the device and allows the document to print.

Evaluating Total Cost of Ownership (TCO) and Cost/Value Benefits

Consider how a printer or multifunction printer can help you reduce costs.

Affordability is a big consideration when choosing a printer or multifunction printer. Is the product priced competitively with comparable products? How does a multifunction printer compare with purchasing multiple stand alone devices?

When evaluating a printer or multifunction printer, remember that the total cost includes several factors besides the initial purchase price, including the cost of supplies. Are supply costs competitive? Does the vendor provide fact-based tools and methods to help you assess current TCO?

With Xerox® printers and multifunction printers, you can add colour capabilities to your office for a surprisingly low overall cost.

Low Cost per Page

Laser printers and multifunction printers are good choices for fast-paced businesses on a budget. Once ink costs are taken into consideration, inkjet printers, initially perceived as being low cost, often turn out to have a higher TCO than the higher performing laser devices.

Having a choice between high-capacity and low-capacity cartridges can help you manage your budget. Choose high-capacity for cost savings and nonstop printing. Choose standard capacity at a lower price, if printing loads are lighter.

Reduce toner costs by taking advantage of cost-saving features like toner-saver mode. Run Black feature allows you to print colour documents in black when a colour cartridge is empty.

The Cost of Space

The compact design of Xerox® printers and multifunction printers can save space on your desktop while smaller toner cartridges with minimal packaging use less precious office storage space. A multifunction printer can add new capabilities to your business and consolidate several office products (along with their supplies) into one.

Consolidate and Save

Multifunction printers are useful assets to help manage and control costs by eliminating some of the need for hard copy documents. You can avoid printing altogether with such features as fax forward to email and by saving scanned files directly to a USB memory drive for easy portability.

Reliability and Ease of Use

TCO can increase significantly for devices that are hard to use and maintain, unreliable or lack the features and capabilities to efficiently and effectively produce the results you need. Xerox® printers and multifunction printers are known for their ease of use and full-featured functionality.
