THE DRIVE THAT SETS NEW DESIGN STANDARDS

Who says all external hard drives look the same? Meet the new Freecom Mobile Drive Sq – the external hard drive that sets new design standards for an external storage device. Designed by acclaimed industrial designer Arman Emami from Germany, the Mobile Drive Sq features a unique organic design, like nothing you've ever seen before. Smooth lines and a square form factor. This drive looks stunning next to any notebook or computer, even next to your TV set. To make it less susceptible to scratches and fingerprints, the Mobile Drive Sq's enclosure cover is made from sandblasted stainless steel. In short - the Sq is guaranteed to turn some heads! Next to a differentiating design, the Mobile Drive Sq boasts the latest USB 3.0 interface, ensuring ultra fast transfer speeds compared to standard USB 2.0. The drive is fully downwards compatible with older USB 2.0 ports, so you can use it on any computer and be ready for the future at the same time! The Mobile Drive Sq is powered by the USB port, no need for additional long cables or power adapters. If you're looking for an exclusive looking hard drive with matching performance and ultimate portability features, look no further - the Mobile Drive Sq is the drive to have!

FREECOM MOBILE DRIVE Sq

- Mobile hard drive in stylish organic design
- High quality enclosure with stainless steel cover
- Also available in slimline version, only 1.05 cm thin!
- USB 3.0 for ultra fast data transfer speed. Can also be connected to USB 2.0 ports
- Including compact sized USB cable, no cable mess anymore inside your notebook bag
- Power provided by the USB port, no need to carry a bulky power adapter
- No cooling fan – ensures quiet operation at all times
- The perfect storage expansion for your notebook or desktop computer
- Including Nero backup software, Green Button power consumption application and FHD Formatting tool
- Two years manufacturer's warranty and unlimited free helpdesk support

DESIGNED FOR

- Data storage - Use all your data, like business information, digital photos, videos, MP3s and withstand bouncing around in handbags, cars etc.
- File sharing - Share all your important data between computers and networks
- Backup - Protect all your data against calamity, human errors and viruses
- Archiving - Archive all your data and lock up drive for extra data security
- Installations - Copy all your software on multiple PCs

IT'S ALL ABOUT DESIGN

There is nothing standard about the Mobile Drive Sq's design. Flowing lines, rounded edges, and a square form factor. This drive really stands out from the crowd! Designed by Arman Emami, winner of numerous industrial design awards. The uniqueness of the Mobile Drive Sq predominantly lies in its shape. Rather than your standard external hard drive box, this drive has an almost square form factor and features organic shapes with rounded edges.

STAINLESS STEEL

To prevent the drive from scratches and fingerprints, the Mobile Drive Sq's enclosure cover is made out of stainless steel. The surface has been sandblasted to give it an exclusive look and feel. It will look stunning next to your notebook!

CAN ALSO CONNECT TO YOUR TV

If your TV or settop box supports USB recording and/or playback, you can connect the Mobile Drive Sq to your TV and record your favourite programmes and play them back at your convenience. The Sq will look perfect next to your TV.

USB
RECOPLAY
SUPPORTS USB RECORDING / PLAYBACK

FREECOM QUALITY

Since 1989 Freecom stands for creating innovative and professional

digital (storage) solutions. All Freecom products are designed, engineered and certified in Germany according to the highest quality standards to guarantee customer satisfaction. To meet the high expectations of professional users Freecom products are delivered with extensive warranty and unlimited free helpdesk support.

Definitions: 1GB = 1000MB – 1 MP3 song = approx. 5MB / 1 JPEG photo = approx. 1.5MB / 1 DVD movie = approx. 4.5GB / 1Xvid/DivX movie = approx. 1GB.

Some of the hard drive capacity is used for pre-loaded software, formatting and other functions, and thus is not available for data storage. As a result, your operating system may report fewer gigabytes/terabytes.

WHAT WILL IT HOLD	500GB	750GB	1TB	1.5TB
MP3 songs	100.000	150.000	200.000	300.000
JPEG pictures	330.000	500.000	660.000	1.000.000
DVD movies	110	165	220	330
DivX/Xvid movies	500	750	1.000	1.500
