

Blu-ray Disc/ DVD player

- DVD video upscaling
- CinemaPerfect HD

BDP1300/F7

Enjoy super sharp movies in HD

With the Philips BDP1300 Blu-ray player, movies never looked better. Incredibly sharp images in full HD 1080p are delivered from Blu-ray discs, while DVD upscaling offers near-HD video quality.

Benefits

Engage more

- Enjoy all your movies and music from CD and DVD
- EasyLink to control all HDMI CEC devices via a single remote

Hear more

- Dolby TrueHD for high fidelity sound
- DTS2.0 Digital Out

Features

Enjoy movies and music

See more

- Blu-ray Disc playback for sharp images in full HD 1080p
- DVD video upscaling to 1080p via HDMI for near-HD images

Blu-ray Disc playback

Blu-ray Discs have the capacity to carry high definition data, along with pictures in the 1920 x 1080 resolution that defines full high definition images.

PHILIPS

Scenes come to life as details leap at you, movements smoothen and images turn crystal clear. Blu-ray also delivers uncompressed surround sound - so your audio experience becomes unbelievably real. The high storage capacity of Blu-ray Discs also allow a host of interactive possibilities to be built in. Seamless navigation during playback and other exciting features like pop-up menus bring a whole new dimension to home entertainment.

Dolby TrueHD

Dolby TrueHD deliver the finest sound from your Blu-ray Discs. Audio reproduced is virtually indistinguishable from the studio master, so you hear what the creators intended for you to hear. Dolby TrueHD complete your high definition entertainment experience.

DVD video upscaling

HDMI 1080p upscaling delivers images that are crystal clear. DVD movies in standard definition can now be enjoyed in high definition resolution - ensuring more details and more true-to-life pictures. Progressive Scan (represented by "p" in "1080p") eliminates the line structure prevalent on TV screens, again ensuring relentlessly sharp images. To top it off, HDMI makes a direct digital connection that can carry uncompressed digital HD video as well as digital multi-channel audio, without conversions to analog - delivering perfect picture and sound quality, completely free from noise.

EasyLink

EasyLink lets you control multiple devices like DVD players, Blu-ray players, soundbar speaker, Home theater and TV's etc. with one remote. It uses HDMI CEC industry-standard protocol to share functionality between devices through the HDMI cable. With one touch of a button, you can operate all your connected HDMI CEC enabled equipment simultaneously. Functions like standby and play can now be carried out with absolute ease.
