

HP No. 11 Ink Supplies

Ideal for business professionals in connected workgroup and stand-alone environments with the need for colour printing, as well as graphic designers, advertising agencies and technical professionals specialising in AEC, mechanical design and GIS.

The ability to replace cartridges individually means only replacing the colour that has run out. Combined with the high page yield, this helps high-volume customers ensure minimal user intervention.

Specially formulated inks create the blackest pigmented blacks and vivid dye-based colours, ensuring sharp, clear prints with precise dot placement. HP Cartridges and Printheads are designed to work seamlessly together with HP Printers and Papers.

HP's No. 11 Ink Printing System enables printouts to dry fast, with high smudge-resistance qualities that make prints easier to handle. This careful HP attention to details minimises the possibility of print damage and reduces need for reprints.

HP Smart Technology is embedded in the ink cartridges and printheads to monitor print performance and provide fine-tuning for optimum print quality. And auto monitoring of ink usage enables automatic alerts when supplies need replacing.

The HP No. 11 Cyan, Magenta and Yellow Ink Cartridges work together with the HP No. 11 Printheads and HP No. 10 Black Ink Cartridge to form the HP Modular Ink Delivery System for a variety of HP Business Inkjet and HP Designjet Printers.

HP No. 11 Ink Supplies

Product specification ink cartridges

HP No. 11 Ink Cartridges*

Product number	Colour	Ink volume	Average yield**	Dimensions (l x w x d)	Weight	UPC code
