Highlights

Nickel-Plated Connectors

Nickel-plated connectors establish a clean contact between the cable and connector for a reliable connection.

True stereo sound

A solitary connection of audio out (left and right) which goes directly to a stereo receiver for improved sound.

Quality construction

Quality construction uses only top grade materials to create products of extended durability.

Bare copper shielding

Bare copper shielding protects against signal loss.

Molded plug

Molded plugs ensure secure connections between components and offer extended durability.

Flexible PVC Jacket

Flexible PVC jacket provided protection to the delicate core of the cable. It also offers extended durability and ease of installation.

Rubber strain relief

Rubber strain relief provides a secure, yet flexible juncture between the cable and the plug.
