- Audio out for amplifier addition
- Built-in 50 W x 4 amplifiers for excellent sound quality

Design that blends into your car

- High contrast LCD with 32 K variable colour illuminations
- Browse by folder or song for instant search or quick access
- Detachable front panel and blackout for anti-theft security

PHILIPS

Highlights

MAX Sound

MAX Sound technology produces an instant boost in the bass, maximising volume performance and instantly creating the most impressive listening experience with just the touch of a button. Its sophisticated electronic circuitry calibrates existing sound and volume settings, instantly boosting the bass and volume to maximum levels, without distortion. The end result is a noticeable amplification of both sound spectrum and volume and a powerful audio boost that will add mileage to any music.

DBB Dynamic Bass Boost

Activate the Dynamic Bass Boost (DBB), and the low-end bass frequencies are electronically enhanced to achieve consistent sound reproduction, especially when the speaker

volume is set at a low level. You hear impressive bass at all times.

3-band parametric equalizer

3-band parametric equalizer with 8 presets

32 K variable colour LCD

High contrast LCD with 32 K variable colour illuminations

Browse by folder or song

This function allows you to find a track or album much faster by letting you browse through songs and folders, which are the usual contents of USB/SDHC devices. With the dedicated folder/song button, only three

simple steps are needed to make a search – press folder/song, rotate the volume knob and push to select. This simple process lets you search through your music quickly and easily, letting you to focus on your driving.

USB Direct for MP3/WMA music

Simply plug in your device to the USB port on your Philips Hi-Fi system. Your digital music will be played directly from the device. Now you can share your favourite moments with family and friends.

Detachable front panel

Detachable front panel and blackout for anti-theft security
