Highlights

Superior performance

Philips NanoProtect S3 filter is made of high quality material. It can remove 99.97% of airborne allergens and ultrafine particles as small as 0.003 μm , including harmful particles, bacteria and viruses. The high grade filter with firm and stable structure ensures all the air flows through the filter and delivers high filtration efficiency.

Long-lasting performance

Philips NanoProtect S3 filter has multiple optimized pleats. This covers an unfolded area of about 2.44 m^2 to ensure a long lifetime.
