Drive with style

Best xenon effect for a more modern look

CrystalVision ultra headlights are for drivers seeking to personalize their vehicles. With CrystalVision ultra, drivers enjoy a xenon effect thanks to its unique Gradient Coating™ technology, unmatched in a fully homologated road-legal lamp.

The best xenon effect for halogen lamps

- CrystalVision ultra has a Gradient Coating™ technology
- 2 signaling W5W are offered with CrystalVision ultra
- More style with up to 4100K blue xenon effect in the lights

Original Equipment manufacturer

- Wide range of 12V lamps to meet all functions
- Change both your headlamps at once for more safety
- Philips is the choice of major car manufacturers
- Award winning car lamp manufacturer
- Respecting high quality standards of the ECE homologation

Very high quality and ultra resistant car lamp

- Philips car lamps are made of high-quality quartz glass
- Philips car lamps are highly resistant against humidity
- The lamps Philips protect the headlights against UV

PHILIPS

Highlights

A unique coating technology

Thanks to exclusive Gradient Coating™ technology of halogen range, CrystalVision ultra can offer the best xenon effect. With white light on the road and blue look in the headlights, the car gets more beautiful and modern, without any risk of fines.

Positioning lamps included

Give your car a full elegance of blue lighting. This is because the CrystalVision ultra includes a pair of W5W positioning lights bulbs. So you can match the look of the headlights with the side indicators.

Designed for multiple usage

Which 12V lamp for which function ? Philips Automotive offering includes all car specific functions : high beam, Low beam, front fog , front indicator, side indicator, rear indicator, stop light, reversing light, rear fog light, license plate lights, rear position/parking light, interior lights.

Change by pairs

Highly recommended to change them by pairs for symmetric light performance

Car manufacturer choice

For 100 years, Philips has been at the forefront of the automotive lighting industry, introducing technological innovations that have become standard on modern automobiles. Today, one in two cars in Europe and one in three worldwide is equipped with Philips lighting.

Rewarded Car lamps

Our lamps are often rewarded by automotive experts

ECE homologation

Philips automotive products and services are considered best-in-class in the Original Equipment Manufacturer market and the aftermarket. Manufactured from high quality products and tested to the highest specifications, our products are designed to maximize the safety and comfort of our customers' driving experience. Our entire product range is thoroughly tested, controlled and certified (ISO 9001, ISO 14001 and QSO 9000) to the highest ECE requirements. Put simply, this is quality you can trust.

High quality quartz glass

UV-Quartz glass is stronger than hard glass and highly resistant to temperature extremes and

vibrations, which eliminates the risk of explosion. Philips quartz-glass lamps (filament 2650° C and glass 800° C) are able to withstand severe thermal shock. With the capability of increased pressure inside the lamp, UV-quartz glass is able to produce a more powerful light

Resistance against humidity

Only a burning bulb made of quartz glass (filament 2650°c, glass 800°c) can resist thermal shocks : if a drop of cold water touches the hot bulb, which can happen when you drive through water with a broken headlight unit.

UV Resistant

Philips special anti-UV coating technology protects the headlights against harmful ultraviolet radiation, making Philips UV-coated quartz glass perfect for all driving conditions and ensures their longevity.

Up to 4100 K white light

Providing up to 4100 K bright white light on the road and a unique bluish xenon effect in the headlight, the CrystalVision ultra is the right choice for drivers seeking to drive with style without compromising the safety.

Specifications

Packaging Data

- Packaging type: SM
- EAN1: 8727900340020
- EAN3: 8727900340037

Product description

- Technology: Halogen
- Application: High beam, Low beam
- Base: P20d
- Range: CrystalVision ultra
- Type: HB3
- Homologation ECE
- Designation: 9005CVUSM

Electrical characteristics

- Voltage: 12 V
- Wattage: 65 W

Marketing specifications

- Expected benefits: Style
- Product highlight: Drive with style

Light characteristics

- Color temperature: 4100 K

Ordering information

- Order entry: 9005CVUSM
- Ordering code: 34002028

Outerpack information

- Height: 12 cm
- Length: 28.6 cm
- Net weight per piece: 205 g
- Width: 14.1 cm
- Gross weight per piece: 0.605 kg

Packed product information

- Gross weight per piece: 61.90 g
- Height: 13.3 cm
- Length: 11 cm
- Net weight per piece: 41 g
- Width: 5.3 cm
- MOQ (for professionals): 5
- Pack Quantity: 2

Lifetime

- Life time: B3/Tc = 250/500

Issue date 2020-02-03

Version: 8.1.1

12 NC: 8670 001 38711
