Highlights

Up to 30% more vision

Our lighting solutions produce a powerful and precise beam of light with maximum output. We consistently produce the best, most efficient lighting solutions because we know that our high-quality lighting may one day save a life.

Better visibility and reaction

Light is a fundamental part of the driving experience and light is the first and only part of the safety circle that actually helps prevent accidents. Philips promotes active safety protection to prevent accidents by increasing overall visibility and road illumination.

Car manufacturers' choice

For 100 years, Philips has been at the forefront of the automotive lighting industry, introducing technological innovations that have become standard on modern automobiles. Today, one

in two cars in Europe and one in three worldwide is equipped with Philips lighting

Change in pairs

It is highly recommended to change them in pairs for symmetrical light performance

Designed for multiple usage

Which 12V lamp for which function? Philips Automotive offering includes all car specific functions: high beam, low beam, front fog, front indicator, side indicator, rear indicator, stop light, reversing light, rear fog light, licence plate lights, rear position/parking light, interior lights.

ECE homologation

Philips automotive products and services are considered best in class in the Original Equipment Manufacturer market and the aftermarket. Manufactured from high-quality products and tested to the highest specifications, our products are designed to maximise the safety and comfort of our customers' driving experience. Our entire product range is thoroughly tested, controlled and certified (ISO 9001, ISO 14001 and QSO 9000) to the highest ECE requirements. Put simply, this is quality you can trust.

High-quality quartz glass

UV-quartz glass is stronger than hard glass and highly resistant to temperature extremes and vibrations, which eliminates the risk of explosion. Philips quartz-glass lamps (filament 2 650°C and glass 800°C) are able to withstand severe thermal shock. With the capability of increased pressure inside the lamp, UV-quartz glass is able to produce a more powerful light

Resistance to humidity

Only a burning bulb made of quartz glass (filament 2650°C, glass 800°C) can resist thermal shocks: if a drop of cold water touches the hot bulb, which can happen when you drive through water with a broken headlight unit.

Award-winning car lamps

Our lamps are often rewarded by automotive experts

Specifications

Marketing specifications

- Expected benefits: More light
- Product highlight: Up to 30% more vision

Product description

- Application: High beam, Front fog light, Low beam
- Base: P14, 5s
- Designation: H1 Vision
- ECE certification
- Marking ECE: E1 21P
- Range: Vision
- Technology: Halogen
- Type: H1

Lifetime

- Life time: 400h

Light characteristics

- Lumens: 1690 +5% -7% lm
- Colour temperature: Up to 3200 K

Electrical characteristics

- Wattage: 55 W
- Voltage: 12 V

Ordering information

- Order entry: 12258PRB1
- Ordering code: 47516930

Packaging Data

- Packaging type: B1
- EAN1: 8711500475169
- EAN3: 8711500475176

Packed product information

- Width: 9.5 cm
- Height: 13.5 cm
- Net weight per piece: 6.255 g
- Gross weight per piece: 22 g
- Length: 2.568 cm
- Pack Quantity / MOQ: 10
- Pack Quantity: 1
- MOQ (for professionals): 10

Outer pack information

- Length: 19.5 cm
- Width: 15.3 cm
- Height: 11 cm
- Gross weight per piece: 0.22 kg

Issue date 2024-08-30

Version: 12.12.1
