

Make every display smarter

4K Android player designed for TEOS

Add TEOS corporate workspace applications to any display device with this slim, compact 4K Android Player.

Player TEP-X96 connects via HDMI to any display – including non-Sony flat panel screens and projectors – giving instant access the full range of TEOS workspace solution plus a world of Android apps. Integration's simple, with no tricky set-up required. With support for 4K 60p and HDR, all your apps and content look their very best on compatible 4K displays and projectors.

The Player is compatible with a suite of applications, including digital signage and TEOS Connect. Applications are controlled over the network from TEOS Manage, the complete display device and workspace management solution that is powerful, flexible and easy to use. Other Android apps can be installed and accessed via Google Play.

SONY

Features

Superb 4K image quality

Supports display of high resolution 4K content at up to 60P with HDR compatibility.

Compact size

The player's slim, compact and professional design allows easy integration into any environment.

Versatile connectivity

Wide connectivity options include HDMI-CEC, Wi-Fi and Bluetooth.

Speedy, responsive operation

The player's powerful processor ensures smooth, responsive operation.

High storage capacity
