

CSX-1400BP Bandpass Subwoofer

12" (300mm) car audio bandpass subwoofer box

A subwoofer designed to be seen and heard.

Some car audio fans love the clarity of sealed subwoofer enclosures. Others crave the added power of vented enclosures. The CSX-1400BP bandpass subwoofer offers both. It delivers accurate bass response and thundering power—as well as a bold look. The stylish box features a look-in acrylic window shaped like the JBL exclamation point, making the CSX-1400BP as appealing to the eyes as it is to the ears. And the sturdy enclosure shields the 12-inch polypropylene woofer from items that might shift in your trunk. The great value CSX-1400BP proves you don't have to spend a fortune to enjoy legendary JBL bass.

Features

- ▶ Injection-molded polypropylene cone
- ▶ Slot vent
- ▶ Acrylic window
- ▶ Durable construction

CSX-1400BP Bandpass Subwoofer

12" (300mm) car audio bandpass subwoofer box

Features and Benefits

Injection-molded polypropylene cone

The polypropylene woofer cone in the CSX-1400BP is engineered for superior rigidity, reliability and sensitivity. The result is increased low-frequency output and powerful, natural-sounding bass.

Slot vent

The CSX-1400BP's enclosure is vented, which enables the subwoofer to deliver ultra-low bass at higher sound pressure levels than a sealed enclosure.

Acrylic window

Some subwoofers are meant to be seen as well as heard. The CSX-1400BP features an acrylic window shaped like the JBL exclamation point and orange illumination, so you can look into the enclosure and see what legendary bass looks like.

Durable construction

The CSX-1400BP bandpass enclosure doesn't just produce signature JBL bass performance, it protects it. The rigid box keeps the woofer safe from anything that might slide around in your trunk.
