MCD302

Great movie experience in compact design

plus USB Direct playback

Experience cinema-quality sound at home with the Philips Micro Hi-Fi system MCD302. Plug in a USB-compatible device for photo and MP3/WMA music playback in superb sound. Dramatic sound is yours to enjoy with 2x25W RMS total output power.

Enrich your movie experience

- Play DVD, DivX®, (S)VCD, MP3-CD, WMA-CD, CD(RW) & Picture CD
- Dolby Digital for ultimate movie experience

Enrich your sound experience

- USB Direct for music and photo playback
- Loudness for bass and treble enhancement
- Digital Sound Control for optimized music style settings
- Dynamic Bass Boost for deep and dramatic sound
- 2x25W RMS/1000W PMPO

Easy to use

- Motorized CD loader for convenience access
- Radio Data System for station information and data services
- Wake up and sleep timer functions

PHILIPS

Highlights

USB Direct

Simply plug in your USB device on the system and share your stored digital music and photos with your family and friends.

Loudness

In the sound spectrum, high and low frequencies are relatively less audible to human ears - especially at low volumes. By activating the Loudness feature, the bass and treble will be amplified so you can savor a more balanced sound perception overall.

Digital Sound Control

Digital Sound Control offers you a choice of pre-set Jazz, Rock, Pop and Classic controls

you can use to optimise the frequency ranges for different musical styles. Each mode uses graphic equalizing technology to automatically adjust the sound balance and enhance the most important sound frequencies in your chosen music style. Ultimately, Digital Sound Control makes it easy for you get the most out of your music by precisely adjusting the sound balance to match the type of music you are playing.

Dynamic Bass Boost

Dynamic Bass Boost maximizes your music enjoyment by emphasizing the bass content of the music throughout the range of volume settings - from low to high – at the touch of a button! Bottom-end bass frequencies usually get lost when the volume is set at a low level. To counteract this, Dynamic Bass Boost can be switched on to boost bass levels, so you can enjoy consistent sound even when you turn down the volume.

Dolby Digital

Because Dolby Digital, the world's leading digital multi-channel audio standards, make use of the way the human ear naturally processes sound, you experience superb quality surround sound audio with realistic spatial cues.

Specifications

Sound

- Output Power: 2x25W RMS / 1000W PMPO
- Sound Enhancement: Digital Sound Control 4 modes, Dynamic Bass Boost, Loudness
- Sound System: Dolby Digital
