1 Important

Read this manual carefully before you use the appliance and before you use it for the first time.

• **WARNING:** Do not use this appliance near water.

• When the appliance is used in a bathroom, unplug it after use since the proximity of water presents a risk, even when the appliance is switched off.

• **WARNING:** Do not use this appliance near bathtubs, showers, basins or other wet vessels containing water.

• Always unplug the appliance after use.

• If the main cord is damaged, you must have it replaced by Philips or similarly qualified persons in order to avoid a hazard!

• This appliance can be used by children aged from 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning use of the appliance in a safe way and understand the hazards involved. Children should not play with the appliance.

• For additional protection, we advise you to install a residual current device (RCD) in the electrical circuit which supplies the bathroom. This RCD must have a rated residual operating current not higher than 30mA. Ask your installer for advice.

• Do not connect the appliance into the grid to avoid electric shock.

• Before you connect the appliance, ensure that the voltage indicated on the appliance corresponds to the local power voltage.

• Do not use the appliance for any other purpose than described in this manual.

• Only use for drying and styling scalp hair. Do not use the appliance on critical hair.

• When the appliance is connected to the power, never leave it unattended.

• Never use any accessories or attachments from other manufacturers or that Philips does not specifically recommend. If you use such accessories instead of your, your guarantee becomes invalid.

• If the appliance overheats, it switches off automatically. Unplug the appliance and let it cool down for a few minutes. Before you switch the appliance on again, check the grilles to make sure they are not blocked by fluff, hair, etc.

• Do not wind the main cord round the appliance.

• Wait until the appliance has cooled down before you use it.

Electromagnetic field (EMF)

This appliance complies with applicable standards and limits for electromagnetic fields (EMF).

The actual measured field strength does not exceed the limits specified in the standards.

Electromagnetic fields (EMF) are produced by electrical equipment and can be harmful to health.
