

Philips AquaTrio
Vacuum cleaner and
Mopping System

• 3-in-1

FC7070/01

Vacuums, mops and dries in one go

Save 50% effort. Save up to 50% time.*

Philips' new AquaTrio FC7070/01 simultaneously vacuums, mops and dries hard floors, saving you up to 50% time and effort. Fast-rotating micro-fiber brushes thoroughly remove dirt, stains and liquids in one pass, giving you perfect results.

Superior performance

- Unique Triple-Acceleration Technology for great results
- Floor dries up to 50% faster*

Constant cleaning power

- Separate clean and dirty water tanks

Ideal for all hard floors**

- Wood, parquet, laminate, vinyl, ceramic, natural stone**

Easy to use and efficient

- Effective with cold/warm tap water, with/without detergent
- Cleans more than 60m² with one water tank
- Indicator for full dirty water tank / empty clean water tank
- Self-rinsing appliance with flushing tray
- Save up to 50% energy. Save up to 70% water***

PHILIPS

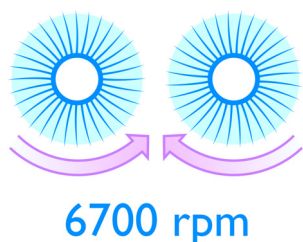

Highlights

Triple-Acceleration Technology

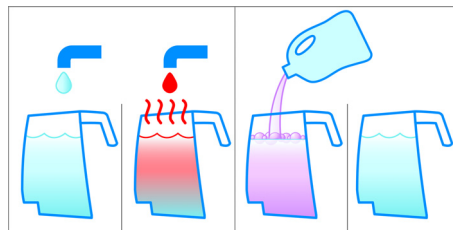

Triple-Acceleration Technology delivers three simultaneous cleaning actions: – Cyclonic vacuuming: efficiently sucks up dust and loose dirt – Wet mopping: the first fast-rotating brush removes stains and spills effectively – Drying: the second fast-rotating brush absorbs the remaining water, reducing drying time by up to 50%*

Fast-rotating brushes

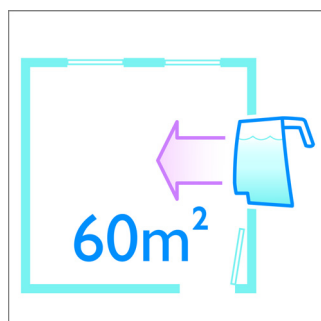

Powerful and gentle micro-fiber brushes deliver 6700 rpm to effectively remove dirt and stains while adapting to the different shapes of the floor and even cleaning in crevices. Brushes clean themselves during use, thanks to the constant clean water applied to them, and to the centrifugal forces which drive the dirt and water picked up from the floors out of the fibers and into the dirty water tank. For optimal cleaning performance replace the AquaTrio brushes every 6 months.

Works with/without detergent

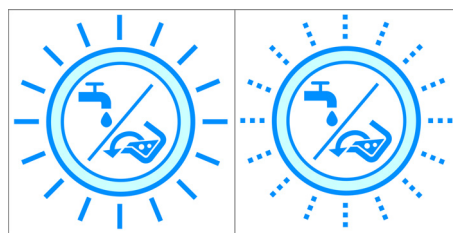

With AquaTrio you obtain excellent results using just tap water. But if required, you can also add your detergent of choice. You can also use cold or warm water. It's up to you!

Cleans more than 60m²

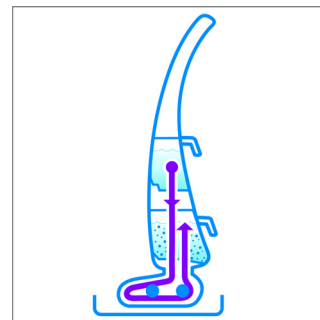

One full tank containing 700ml cleans more than 60m² of hard floor, therefore taking care of large areas while using a minimal amount of water.

Indicator for tank levels

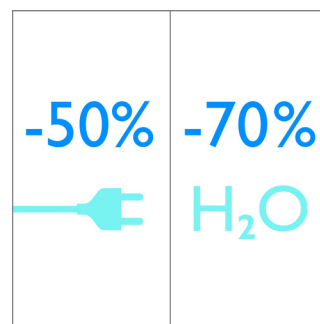

An LED indicator illuminates when the dirty water tank needs emptying, or starts blinking when the clean water tank needs refilling. The appliance will stop operating.

Self-rinsing appliance

No need to manually clean the Philips vacuum cleaner every time; the Philips' AquaTrio rinses itself. Simply place the appliance on the specially-designed flushing tray, pour a cup of tap water into it, and switch it on for a few seconds.

Save 50% energy/70% water***

Highly-efficient power usage saves you up to 50% in energy consumption compared to vacuuming. You also use up to 70% less water than when wet mopping.

Philips Green Logo

Philips Green Products can reduce costs, energy consumption and CO₂ emissions. How? They offer a significant environmental improvement in one or more of the Philips Green Focal Areas – Energy efficiency, Packaging, Hazardous substances, Weight, Recycling and disposal and Lifetime reliability.

Specifications

Nozzles and accessories

- Accessories: Flushing tray
- Nozzle width: 320 mm

Usability

- Handle for easy lifting
- Moves forwards or backwards
- Action radius: 8.5 m
- Change brush while cleaning: Not needed
- Clean water tank capacity (max): 0.65 l
- Clean water: Refill indicator: Yes, LED indicator
- Cord length: 8 m
- Detergents that can be used: any detergent or just water
- Dirty tank: Full indicator: Yes, LED indicator
- Dirty water tank capacity (max): 0.8 l
- Filters to clean: None
- Power supply: Corded
- Start up time: Immediately
- Suitable for wood and parquet
- Surface coverage per tank: more than 60m²

Performance

- Cleaning Technology: Triple-Acceleration Technology
- Mopping element: 2 microfiber rotating brushes
- Input power (IEC): Max 500 W
- Mechanical power: 6700 rpm

Sustainability

- Energy efficient

Filtration

- Filter system: Cyclonic. No filter to clean

Weight and dimensions

- Dimensions of product (LxWxH): 305 x 320 x 1150 mm
- Dimensions of packaging (LxWxH): 790 x 390 x 395 mm
- Weight of product: 7.3 kg
- Weight with packaging: 10.8 kg
