- Video capture and playback in MPEG4 and H263 format

PHILIPS

Highlights

Dual mode (CDMA and GSM)

Your Philips mobile phone incorporates both UIM and SIM cards to allow you access to CDMA and GSM network connections at the

same time. Now you can enjoy wider mobile coverage on two networks with just one phone.

Handwriting recognition

The intuitive and fast way to write text messages. Simply write on the touch screen as you would write on a piece of paper to have the phone convert your handwriting into an SMS (Short Message Service) text message.

7.1 cm (2.8") 262K color TFT

Put the fun and excitement of the most vivid and colorful graphics and photos right at your fingertips with the large 262K color display that features excellent image quality and response time.

* MP3 playback supported from Mini SD-card (not included)

* USB cable may be provided or sold separately and availability is market dependent. MP3 ringtones are not transferable from other handsets.

* Specification indicated based on initial full battery charge tested in laboratories with Bluetooth switched off. Actual performance is dependent on network service provider and usage.

* To maximize backup power, use an Energizer Lithium AAA battery. Also works with disposable Alkaline and Lithium batteries and rechargeable Nickel Metal Hydride (NiMH) batteries.
