- Clinically proven safe and gentle
- Improves gum health in only two weeks

Offers a customized brushing experience

- Easy-start program to acclimate to the Sonicare experience
- Three different modes for a better cleaning experience

PHILIPS
sonicare

Highlights

Patented sonic technology

Philips Sonicare electric toothbrush's unique dynamic action gently and effectively reaches deep between teeth and along the gumline.

Angled brush head neck

The uniquely angled brush head neck of this toothbrush head makes it easier to reach back teeth, removing plaque in those hard-to-reach areas.

UV brush head Sanitizer

All-in-one sanitizing, charging and storage. The UV brush head Sanitizer helps keep your brush head free of bacteria. It kills up to 99% of bacteria and viruses.*

Naturally whiter teeth

The dynamic cleaning action of this toothbrush and the direct broader contact with each tooth, has proven to remove everyday stains, to help keep teeth naturally whiter.

Safe and gentle

Your Philips Sonicare Electric Toothbrush is safe to use on: braces (brush heads wear out sooner when used on braces), dental restorations (fillings, crowns, veneers) and periodontal pockets.

Improves gum health

This Philips Sonicare electric toothbrush provides optimal cleaning between teeth and along the gumline for improved gum health in just two weeks. Giving a superior cleaning in between teeth and removes significantly more plaque to a manual toothbrush

Smartimer

2-minute timer on this Philips Sonicare electric toothbrush helps ensure dental professional recommended brushing time

Quadpacer

30 seconds interval timer indicates when you have completed each quadrant of your mouth and signals for you to move on resulting in more consistent cleaning throughout your mouth

Easy-start program

Gently increases power over first 14 uses to ease into the Philips Sonicare electric toothbrush experience

Three different cleaning modes

The three modes include a clean mode for an outstanding clean in 2 minutes. A sensitive mode for gentle yet thorough cleaning of the gums and a massage mode to stimulate the gum.
