FUJITSU Accessory SmartCard CardOS V4.4

Security Access Protection

A SmartCard for highest security

The SmartCard with CardOS V4.4 fulfills the highest security demands. It is compatible with international smart card standards and is simple and efficient to use in standardized environments and applications. It provides optimal data security with a clearly structured security architecture and a great number of extremely flexible protection mechanisms.

Security

- Different life cycle phases of checking the permitted commands
- Highly complex logical combinations of access rights
- Protection of all data objects with up to 127 different access rights per directory level
- Secure messaging for cryptographically secured communication between the card and the terminal

Reliability

- High quality and function stability according to German standards
- Short reaction and transportation time
- Warranty, Service and spare part supply according to your needs

Usability

- The smart card is compatible with ISO/EC 7816 part 3,4,5,8 and 9.
- Support of independent personalization for individual applications
- Support of CV certificates
- Standard interface for external public key certificate services

Environmentally friendly development

- Minimized size and weight
- Minimized use of raw materials
- Ergonomic considerations are consistently taken into account

SmartCard CardOS V4.4

Technical specifications

	Infineon Smartcard Chip SLE 66CX680PE: 8/16-Bit Security Controller with enhanced instruction set for large memories 0.22 micrometer CMOS Technology 244-Kbytes ROM 7100 bytes RAM 68-Kbytes EEPROM 1100-BIT Advanced Crypto Engine Certified RSA 2048-bit library available Smartcard Operating System CardOS V4.4 / ATOS: Cryptographic functions: Triple-DES (CBC) and DES (ECB,CBC) with ISO-padding MAC and Retail-MAC with ISO- or ANSI-Padding Evaluates cryptographic Hash-data (SHA-1); SHA-2 package RSA with up to 2048 Bit key length on basis of CRT with or without given Public Exponent Supporting PC/SC- / CSP and CT-API Supporting PKCS#1-BT1 or PKCS#1-BT2 or Leading-Zeroes-Padding	
Required interface	Smartcard Reader for Cards on basis of ISO/IEC 7816	
Color	White	
Required interface	Smartcard Reader for Cards on basis of ISO/IEC 7816
