

Philips
Mini Hi-Fi System

• 550 W

FWM6000/10

Powerful, clear and magnificent sound

with this sound system

The FWM6000/10 Hi-Fi system pumps up the power in music with 550 W RMS and 7500 W PMPO power output. A subwoofer delivers rich bass notes, while UniSound offers clear and natural sound. Enjoy music from USB devices and portable music players.

Benefits

Powerful sound you can hear and feel

- MAX Sound for instant power boost
- Dual amplifier for better sound performance
- Subwoofer for powerful bass
- UniSound for natural and crystal-clear sound
- 500 W RMS power delivers great sound for movies and music

Multiple source MP3 music

- MP3 Link for portable music playback
- Compatible with MP3-CD

- Enjoy MP3 music directly from your portable USB devices
- Rip music from CDs, radio and karaoke onto USB device

Convenient and easy to use

- 3-disc changer for convenient multi-disc playback
- Connection for TV or DVD player
- Digital tuning with preset stations for extra convenience

PHILIPS

Features

MAX Sound

MAX Sound technology produces an instant boost in the bass, maximising volume performance and instantly creating the most impressive listening experience with just the touch of a button. Its sophisticated electronic circuitry calibrates existing sound and volume settings, instantly boosting the bass and volume to maximum levels, without distortion. The end result is a noticeable amplification of both sound spectrum and volume and a powerful audio boost that will add mileage to any music.

MP3 Link

The MP3 link connectivity allows direct playback of MP3 content from portable media players. Besides the benefit of enjoying your favourite music in the superior sound quality delivered by the audio system, the MP3 link is also extremely convenient as all you have to do is to plug your portable MP3 player into the audio system.

3-disc changer

With a three-disc changer for music playback, you can choose between three different CDs inside the device at any one time. This convenient feature allows you to savour a variety of music while saving you precious time spent changing CDs frequently.

Specifications

Number of speaker boxes	3
Speaker drivers	2 x 6.5" woofer 2" tweeter 3-way
Subwoofer types	8" woofer passive
Speaker types	bass reflex speaker system

UniSound

Get ready for music that is undeniably clearer and more natural. The UniSound technology harnesses acoustic design and engineering expertise to deliver sound the way it was meant to be heard. In conventional speakers, the tweeter and woofer deliver sound from different locations. This creates strong interferences that distort sound, resulting in unnatural, flat and stifled audio. UniSound frees music by placing the tweeter and woofer in unique positions and incorporating rigorous crossover engineering, vastly reducing interference and delivering natural sound that is true to the original.

Rip music onto USB device

Audio playback

Playback media	CD CD-R CD-RW MP3-CD
