

Epson Stylus Photo PX830FWD

The stylish Wi-Fi 4-in-1 for scanning, copying and faxing that also prints better-than-lab-quality photos and is packed with extra features.

If you want the very latest in home photo printing, Epson's Stylus Photo PX830FWD is the ideal 4-in-1 for you. This top-of-the-range photo printer is packed with premium features in a stylish package to print your favourite photos with better-than-lab-quality results, while also being versatile enough to deliver crisp, clean text documents.

Flexible freedom: Configuring laptops and computers to print wirelessly is easy with the automatic Wi-Fi set-up*1. You don't need to know your network settings or connect with a USB cable, the PX830FWD automatically finds the relevant connection settings in order to configure itself. This 4-in-1 is also compatible with Epson iPrint which offers even more flexibility and freedom, allowing you to quickly and easily print photos and documents wirelessly from smartphones and tablet PCs*2. PC-free photo printing is fast and convenient thanks to the guidance of the large touch-screen and accompanying PictBridge and memory card slots. No more waiting for computers to power up; printing directly from a USB stick or memory card allows greater flexibility and is straightforward.

High performance: This highly efficient all-round printer comes with fast print speeds and double-sided document printing and has the ability to print directly onto suitable CD and DVDs, which you can use to personalise family films and digital photo albums.

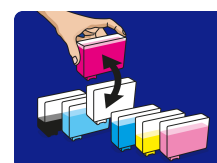

Stylish design: The large 19.8cm touch-panel with integrated touch-screen complements a contemporary design. Multi-page documents can be scanned, copied and faxed when fed through the automatic document feeder, which neatly folds away when not in use. The front-loading trays keep paper discreetly stored away and out of sight.

DATASHEET
