All your music on the go

Slide-out USB for easy fun

The small, smart and super cool Philips GoGEAR Mini MP3 Player lets you share and transfer music easily with its slide-out USB and drag and drop feature - without cables or software. Enjoy up to 8 hours playback on its embedded battery.

Superb quality sound

- MP3 and WMA playback

Complements your life

- Enjoy up to 8-hour music playback
- FM radio with 20 presets for more music options
- Voice recording to take notes or record anything, anytime

Easy and intuitive experience

- Push-out USB for easy file transfers - without cables
- Drag and drop your songs easily - no software needed
- Folder view to organize and view media files like on your PC

PHILIPS

Highlights

MP3 and WMA playback

Audio compression technology allows large digital music files to be reduced up to 10 times in size without radically degrading their audio quality. MP3 or WMA are two of the compression formats that let you enjoy a world of digital music on your GoGear player. Download MP3 or WMA songs from authorized music sites on the Internet or create your own MP3 or WMA music files by ripping your audio CDs and transferring them onto your player.

FM radio with 20 presets

Digital FM radio offers you additional music options to your music collection on your GoGear. Simply tune into the station that you want to preset, press and hold the preset button to memorize the frequency. You can

preset up to 20 radio stations and enjoy your favorite programs whenever you go.

Voice recording

Voice recording converts your GoGear player into a handy dictation machine. Besides playing music or listening to radio, you can also record notes or reminders for work or school, record shopping lists and phone numbers – even song lyrics. By pressing the recording button and speaking into the built-in microphone, voice messages are compressed and stored in the built-in internal memory. Voice recording gives you a highly portable voice recorder allowing you to record anything, anytime and anywhere!

Folder view

Folder view is an optional directory view of the GoGear player that lets you view all the files on your player as if it were a computer. Once you select Folder view, opening any supported

file (i.e. music, pictures or videos) is as easy as selecting the file and hitting Play.

Push-out USB

Push-out USB for easy file transfers - without cables

Up to 8-hour music playback

Enjoy up to 8-hour music playback

Drag and drop your songs

You can quickly and easily copy your music collection from your PC to your GoGear player. Simply connect your GoGear to your PC while in Windows® Explorer, select the songs or the folders that you want to copy to your player, then drag the selected files to the GoGear's music folder. It is that simple. No additional software installation is needed!

Specifications

Picture/Display

- Backlight
- Type: LCD
- Diagonal screen size (inch): 1.1 inch
- Resolution: 96 x 32
- Lines of text: 1
