

JBL ON STAGE®* IV

Portable loudspeaker dock for iPod and iPhone

If power and portability are what you want in a loudspeaker dock, the JBL On Stage®* IV has them – in style. Four JBL® Odyssey® full-range transducers and a digital amplifier will fill virtually any room (or outdoor space, for that matter) with realistic JBL sound, and 6 AA batteries will give you hours of continuous use. The IR remote control lets you navigate your music library from across the room, and a USB cable will sync your iPod or iPhone with iTunes and keep it charged. So anywhere you and your friends get together, you'll want the JBL On Stage IV to be there, too.
