
INSTALLATION INSTRUCTIONS

Large Flat Screen Rotation Accessory

DISCLAIMER

Milestone AV Technologies, Inc., and its affiliated corporations and subsidiaries (collectively, "Milestone"), intend to make this manual accurate and complete. However, Milestone makes no claim that the information contained herein covers all details, conditions or variations, nor does it provide for every possible contingency in connection with the installation or use of this product. The information contained in this document is subject to change without notice or obligation of any kind. Milestone makes no representation of warranty, expressed or implied, regarding the information contained herein. Milestone assumes no responsibility for accuracy, completeness or sufficiency of the information contained in this document.

! IMPORTANT WARNINGS AND CAUTIONS!

! WARNING: A WARNING alerts you to the possibility of serious injury or death if you do not follow the instructions.

! CAUTION: A CAUTION alerts you to the possibility of damage or destruction of equipment if you do not follow the corresponding instructions.

! WARNING: Failure to read, thoroughly understand, and follow all instructions can result in serious personal injury, damage to equipment, or voiding of factory warranty! It is the installer's responsibility to make sure all components are properly assembled and installed using the instructions provided.

! WARNING: Failure to provide adequate structural strength for this component can result in serious personal injury or damage to equipment! It is the installer's responsibility to make sure the structure to which this component is attached can support five times the combined weight of all equipment. Reinforce the structure as required before installing the component.

! WARNING: Exceeding the weight capacity can result in serious personal injury or damage to equipment! It is the installer's responsibility to make sure the combined weight of all components does not exceed the maximum weight capacity of the mount to which this accessory is being installed.

TOOLS REQUIRED FOR INSTALLATION

PARTS

Assembly And Installation

1. Remove screen from Chief mount or , if not installed, install PSB interface bracket to back of screen per instructions supplied with mount.
2. Attach mounting buttons to rotation assembly, making sure the buttons are securely fastened. (See Figure 2)

Figure 1

3. Attach to PSB interface bracket by placing the mounting buttons of PSB into the teardrop slots of PAC-400. Make sure the mounting buttons are placed securely in teardrop slots. (See Figure 2)

Figure 2

4. Place latching flags over buttons and secure using a 10-24 Phillips head cap screws.

NOTE: Use 10-24 x 1/4" Phillips security screws (D) and security hex key instead of Phillips screws for added security. (See Figure 3)

Figure 3

5. Set desired amount of friction for rotating screen by tightening or loosening nuts on back side of PAC-400. (See Figure 4)

Figure 4

6. With the aid of another person, lift display and PAC-400 up to mount, aligning buttons of rotation accessory with slots in the Chief mount.
7. Raise safety latch on Chief mount to secure display, making sure latch is completely engaged.
8. To rotate screen the other way, take screen and rotation accessory from Chief mount and rotate the back plate of the PAC-400 by 90 degrees.
9. Install screen on Chief mount.

Cable Management (Optional)

1. Use holes on outside bends to tie wires for cable management. (See Figure 5)

Figure 5

NOTE: On tilting mounts, it may be necessary to increase friction on tilting mechanism since PAC-400 adds depth to overall installation and roll adjustment on PDS mount may need tightening.
