One headset for music and calls

- SwitchStream - never miss a beat, never miss a call.
- Integrated mic, volume and track control on headset

Talk freely - handsfree and wireless

- Wireless call management
- Clear calls even in windy or noisy environment

PHILIPS

Highlights

Sweat proof

Designed with a water resistant seal to protect your headphones from sweat related damage

Washable

Constructed with water proof materials allowing you to wash your headphones under running tap water

Bass thumping stereo sound

Acoustics finely tuned to enhance the sporting experience - fuel for your workout

For best sound at low volume

You don't have to turn up the volume in noisy places anymore. Angled Acoustic Pipe and the perfectly sealing earbuds cut off background noise significantly,

delivering the same quality sound at lower volume and a longer battery life.

3-size ultra-soft silicon caps

The 3 sizes of ultra-soft silicon caps of these Philips earphones sit comfortably in your ears without adding pressure to them whilst blocking out unwanted noise.

SwitchStream

With SwitchStream you will hear a ring tone in your Philips wireless headphones when you are receiving a call on your Bluetooth enabled phone. You can then pick up the call from your headset and return to your music after ending the call. Never miss a beat, never miss a call.

Easy call and music management

Sensitive microphone, volume, call and track controls are all integrated into the headset so you don't need to take out your mobile phones for changing volume, tracks or picking up the call.

Dual mic for noise reduction

This headset is built with dual mic technology for noise reduction. It allows crystal clear call even in windy or noisy environment.

Wireless call management

Manage your call without using your mobile phone. This includes call acceptance, rejection, voice dial and redial. Voice dial and redial have to be supported by your mobile phone.

Specifications

Connectivity

- Bluetooth profiles: A2DP, AVRCP, Handsfree, Headset
- Bluetooth version: 2.1
- Maximum range: Up to 15 m

Power

- Battery Type: LI-Polymer
- Battery weight: ??
