

InLine® KVM Switch 19" 4 Port USB or PS/2 with OSD cascadable

* Preise inkl. gesetzlicher MwSt. zzgl. Versandkosten

Marke: INL

Bestell-Nr.: 60664A

The 19" Rackmount USB PS/2 KVM Switches are designed for computer / server management on a centralized single admin desk in corporate, factory as well as in campus computing environment. It provides the OSD Menu for intuitive KVM switching operations and its cascadable feature allows the number of connected servers maximized up to hundreds. Its enhanced hot-plugging capability allows you to plug off and on the KVM cabling without powering down a whole rack of servers, especially convenient when you are working on a server rack configuration. Both USB and PS/2 interface support on both console side and PC side offers maximum convenience in a computing environment that accommodates both newer USB-enabled computers and older computers with only PS/2 interfaces.
